

from a loss of numbers in grade, de-  
ferring promotion, to dismissal from  
the service.

#### URGES AIR BUREAU

San Antonio, Tex., Sept. 8.—(AP)—  
Col. William Mitchell, deputy assist-  
ant air chief, today issued a formal  
statement in which he recommends  
creation by the next congress of an  
aeronautics bureau under a secretary  
of air and suggested plans for bureau's  
operation.

He says that the entire national de-  
fense should be consolidated under one  
head, who would be responsible,  
but that the department should be  
divided into three sections under sub-  
secretaries, army, navy and air.

The colonel refrained from comment-  
ing upon his statement issued Satur-  
day, nor did he mention the imbrolio  
his tirade stirred up. He confined  
himself solely to the department he  
urges.

#### Mitchell's Statement

"We must apply a remedy to the  
conditions existing in our whole na-  
tional defense system, and in our aéro-  
nautics in particular," the statement  
says. "Preliminary steps should be  
taken at once and in December de-  
cisive action by congress to put these  
measures into law."

"We should consolidate our whole  
national defense under one head and  
hold one man responsible for the whole  
thing. Under him should be three  
subsecretaries, one for the army, one  
for the navy, and one for aeronau-  
tics."

Policies pertaining to our national  
defense should be recommended by the  
secretary of national defense to the  
President upon the advice of the three  
subsecretaries. Having three subse-  
cretaries would insure there being no  
deadlock, as often occurs at the pre-  
sent time between the army and navy.

#### Would Conscrip Capital

"In time of war or threatened em-  
ergency capital should be conscripted as  
well as labor. All raw materials for  
the construction of national defense  
equipment should be obtained and dis-  
tributed under one head."

"According to this system the army  
organization would remain much the  
same as it is at present, except that it  
would be modernized. The naval  
organization would also have little  
change. Any air service that these  
two departments needed would be per-  
manently assigned to them."

"The secretary of the air, however,  
should be entrusted with the whole  
aeronautical development of the gov-  
ernment, which is even more important  
in time of peace than it is in time of  
war, because we can employ aviation  
in useful pursuits during peace."

"The department of aeronautics  
should be divided into three principal  
subdivisions, one charged with the de-  
velopment of civil aviation. This  
should provide for the airways through-  
out the country, the aids to air nav-  
igation, and provide an efficient weather  
service and storm warnings; a legal de-  
partment, to make recommendations  
about all air navigation laws, inspec-

#### SUMMERALL URGES PREPAREDNESS IN TALK TO WAR MOTHERS

Philadelphia, Pa., Sept. 8.—(AP)—  
American war mothers in annual con-  
vention today were exhorted to defend  
and further a national policy of pre-  
paredness in order that the country  
may be made "better to live in, safer  
for its people, and more worthy of  
service and sacrifice by its citizens."

Maj. Gen. Charles P. Summerall,  
commander of the First division in  
France during the world war, and now  
chief of the Second corps area of the  
army, delivered the plea.

"Today the nation needs its war  
mothers as urgently as it needed them  
in the trying days of 1917 and 1918,"  
the general said. "You can demand  
that the future shall not find the na-  
tion so weak that the sons of the wo-  
men of our country shall pay with their  
blood the price of neglect."

tion of pilots and aircraft, so as to  
be sure the public is safeguarded when  
traveling or using aircraft.

#### Construction Department

"The second division should be a  
section of fabrication or construction.  
In this department special studies  
should be made of the kinds of aircraft  
that are necessary, of their airworthi-  
ness and safety."

"The third division should be the  
air force, that part specifically charged  
with air defense. Provision should be  
made for a suitable number of well  
trained flying men and good airplanes  
to defend this country in case of  
trouble. Only a small part of the  
total need be kept constantly under  
arms."

"With an adequate air force it is  
difficult to see how any hostile force  
can touch our soil, coming from Eu-  
rope or from Asia."

#### Wants New System

"For many years we have had to  
cater to the old army and navy sys-  
tem—it now should be stopped and a  
new one instituted. To sidestep this  
change, propositions certainly will be  
made to create a special service of  
aviation within the army; a special  
service of aviation in the navy, and  
a special service of aviation within the  
department of commerce to handle  
civil aeronautics."

"The terrible conditions in our na-  
tional aeronautics today is not so  
much the result of the absolute igno-  
rance of individuals; the trouble is  
with the system and we flying people  
insist that our views be known and  
weighed by the American public."

#### RETURN SUICIDE VERDICT

A coroner's jury yesterday returned a  
verdict of suicide while temporarily insane  
at the instant into the death of James Sier-  
ers, 2823 66th place, who shot himself Sun-  
day night after his wife had brought suit  
against him.

#### WOMAN LEADER OF DRYS SLAIN IN IOWA HOME

#### Bootleggers Suspected by Officials.

Vinton, Ia., Sept. 8.—(AP)—Shot down  
as she was writing a paper she in-  
tended to read today before the Ben-  
ton County W. C. T. U., of which she  
was president, Mrs. C. B. Cook, 41, was  
killed in her home last night, the vic-  
tim, her friends believe, of one of a  
number of liquor law violators against  
whom she had been active.

One shot, fired through a rear win-  
dow, caused her death, an hour and a  
half later. She was unconscious most  
of the time until her death and un-  
able to supply any information that  
would aid authorities in their search  
for her assailant.

#### Calls to Mother

"Oh save me; save me," were the  
only words she uttered to her aged  
mother, Mrs. E. Underwood, when the  
latter hurried downstairs upon hear-  
ing her daughter scream following the  
shooting.

Testimony to this effect was given  
by Mrs. Underwood at the coroner's  
inquest this afternoon. She also ex-  
pressed the belief that "some of those  
drunks who hang around the streets  
near our home" were responsible for  
the crime.

Belief that Mrs. Cook was killed by a  
liquor law violator was strengthened  
by word from Cedar Rapids that  
Mrs. Cook had made two trips to the  
city to consult Roy R. Slade, a prohibi-  
tion enforcement officer, relative to  
conditions in Vinton.

#### Furnished Officer Names

Mr. Slade said that on her last visit  
she furnished the names of several  
persons suspected of being engaged in  
rum running and illegal sale of  
liquors. Later Slade said he received  
a letter from her in which she spoke of  
going before the Benton county grand  
jury.

Mrs. Cook charged, Slade said, that  
Benton county civil authorities were  
not doing their duty. From another  
source it was learned, however, that  
Mrs. Cook had a list of names of boot-  
leggers she intended to submit to the  
grand jurors.

Marks on the screen of the window  
through which the bullet passed are be-  
lieved to have been caused by burned  
powder, leading to the opinion that  
Mrs. Cook was shot at short range.

A .32 caliber weapon, an autopsy re-  
vealed was used by the assailant.  
Apparently no clues of a definite  
nature were left and the local authori-  
ties called upon the state bureau of  
criminal investigation at Des Moines  
for assistance. George Atkins, a state  
agent, was sent here to aid.

"A martyr to the cause of prohibi-  
tion," was the way Mrs. Cook's friends  
viewed the crime. Her mother-in-law  
and co-worker, Mrs. S. W. Cook, de-  
clared that "this dastardly murder—  
the shooting down of a God-fearing  
woman in her own home—only arouses  
us to new efforts to crush the illicit  
liquor traffic in this community."

Several months ago the Cook resi-  
dence was smeared with rotten eggs  
shortly after Mrs. Cook had returned  
from a church meeting. Her husband  
has been employed by the Sioux City  
Gas and Electric company.

#### Ex-Head of N. Y. Exchange Thrown by Horse; Injured

Morristown, N. J., Sept. 8.—(AP)—  
Seymour L. Crowell, former president  
of the New York stock exchange, has  
been in a private hospital here suf-  
fering from concussion of the brain  
caused when he was thrown from his  
horse while riding with his wife at  
Bernardsville last Sunday.

#### NAVY AIR CHIEF SILENT ON ROW WITH MITCHELL

Rear Admiral William A. Moffett,  
chief of the bureau of aeronautics,  
United States navy, who has been  
on an inspection tour of Honolulu and  
the far east, passed through Chicago  
yesterday on his way back to Wash-  
ington, D. C.

Pending conferences with Secretary  
Wilbur and other navy officials,  
Admiral Moffett refused to comment  
on the recent loss of the navy's  
dirigible, the Shenandoah.

Neither would he discuss the charges  
brought by Col. William Mitchell  
against heads of the navy and war  
department.

#### DOBBS

We ought to simply say Dobbs, and let it go at  
that. The name means everything we could say, and  
more, to the kind of men who want that kind of a  
hat. To the men who come here, and the men who  
will come here, let us add one thing—we are so  
certain of the welcome Dobbs Hats will receive from  
Chicago that our hat department will sell nothing  
else. Why should a man wear anything else when  
he can be fitted in the right Dobbs style for him?

## SIST GENERAL RAIL RATE BOOST IS IMPERATIVE

Sargent Hits Suggestion  
of Special Relief.

BY PHILIP KINSLEY.  
(Picture on back page.)

Special relief for the northwest-  
ern lines instead of a general  
increase for western railroads was  
proposed as a possibility yesterday by  
Charles Clyde B. Aitchison of the  
interstate commerce commission in  
a reply questioning of Fred W. Sar-  
gent, president of the Chicago and  
Northwestern railroad, who undertook  
the task of analyzing the conditions  
and the needs of the western roads as a  
whole.

Additional and somewhat sen-  
sational elements entered the hearing  
yesterday when architect Roosevelt  
and attorney William Church Osborn  
of Des Moines entered an ap-  
plication. They represent some \$200,  
000 in securities of railroads of the  
northwest and committees of shippers  
who are impressed with the necessity  
of supporting the northwestern lines.

Mr. Osborn and Mr. Clark last night  
issued a statement telling of the alarm  
of investors in northwestern railroads  
as to the safety of their investments.  
While admitting that there might  
be some slight relief in intrastate rates  
the statement insisted that the alarm  
of investors in northwestern railroads  
is a general prosperity, was to  
raise the level of all western railway  
stocks by a 5 per cent rate increase.

The northwestern, he said, should  
receive \$10,000,000 annually. Its net in-  
come in 1924 was \$16,784,000.

About 500 railroad officials, traffic  
experts, members of state commis-  
sions and shippers' organizations at-  
tended the opening of the hearings at  
the Edgewater Beach hotel.

It was made plain at the beginning  
by Chairman Aitchison that there  
would be no room for arguments and  
that the cross examination at this  
hearing. This is for the railroads  
only to present their facts, he said.

Heavily Critical of Testimony.  
Chairman Aitchison was keenly  
critical of the railroad testimony and  
stopped Mr. Sargent several times in  
the course of the reading of a state-  
ment.

After showing the financial plight  
of the six western roads most in need  
of a rate increase, three in the hands  
of receivers and others with reduced  
or no dividends, Mr. Sargent was  
stopped by this question:

"What is the cause of this?"  
"A depressed situation in western  
territory as to rates," was the  
reply.

"Could special treatment be ap-  
plied?"  
"No," was the answer. "The only  
action that could provide the relief we  
need is action by the interstate com-  
mission granting us a 5  
per cent increase in rates."

The Chicago and Northwestern  
railway, Mr. Sargent said, "has in  
every year since the end of federal  
control furnished its service to the  
public at a return of less than 4 per  
cent upon its investment. This is typi-  
cal of the western railways."

Tells Effects of Boost.  
This is caused by the great in-  
crease which have occurred in the  
cost of railway operation, by the fact  
that the rates have been kept far  
below the rising tide of costs, and  
the fact that constant new capital ex-  
penditures must be made to meet the  
growing demands of agriculture and  
industry.

"A reasonable increase in freight

## HALF A MILLION CHILDREN FLOCK TO SCHOOLS

## NEARLY INCH OF RAIN IN CHICAGO REGION SAVES PARCHED CROPS

Almost an inch of rain fell over Chi-  
cago and surrounding territory yes-  
terday afternoon, bringing new life to  
parched crops and vegetation. The  
official measure here was .96 inch,  
while various points in Illinois, Indi-  
ana, and Iowa reported similar  
amounts. It was the second rainfall  
here in almost a month, a fifth of an  
inch of water having fallen Sunday  
night.

Chicago enjoyed temperatures in the  
low seventies yesterday until 6 p. m.,  
when the mercury fell to 65, low for  
the day. An hour later 79 was regis-  
tered, this being the day's highest.  
Today's forecast for Chicago and  
vicinity is unsettled and warmer. By  
tomorrow the weather bureau prom-  
ises fair and cooler weather.

16 per cent below the level fixed by  
the interstate commerce commission  
in 1920 as calculated to yield the rail-  
ways a fair return.

N. Y. Attorneys' Statement.  
The statement of Mr. Osborn and  
Mr. Clark says the eastern committees  
they represent include Boston, New  
York, Hartford, Virginia, and Georgia,  
covering most of the eastern states.  
The western committees include Chi-  
cago, Minneapolis and St. Paul, Seat-  
tle, and Los Angeles.

"This widespread movement indi-  
cates the genuine alarm of investors in  
northwestern railroads for the safety  
of their investment," says the state-  
ment. "Investors in the Chicago, Mil-  
waukee and St. Paul railway, now in  
receivership, have suffered a loss of  
over \$600,000,000, measured by the  
present market value of their securi-  
ties. The roads of the northwestern  
region as a whole have for some years  
failed to earn a fair return on their  
property. In 1924 the earnings of the  
Chicago, Milwaukee and St. Paul rep-  
resented only 2.59 per cent on its rail-  
way property investment, and on this  
investment in that year the class 1  
railways in the entire northwestern  
region were able to earn only 3.13 per  
cent."

"The rate of return earned on total  
investment was 6.55 per cent in 1916  
and was only 3.75 per cent in 1924."  
Answering statements that it is only  
the weak and unimportant roads of  
the west which have had inadequate  
earnings, Mr. Wetting declared that  
in 1923 the lines in the west which  
earned more than 5 per cent, on their  
investments represented only 1.4 per  
cent of the western mileage.

Western railway rates, he said, are

## VINDICATE N. U. "FRAT" LOCKED FOR WILD PARTY

Active members and alumni of the  
Phi Epsilon Pi fraternity at North-  
western university were vindicated by  
Prof. Herbert Philbrick, chairman of  
the board of supervision of student ac-  
tivities, which held an investigation  
last night into reported high times at  
the "frat" house which led to its pad-  
locking Sunday.

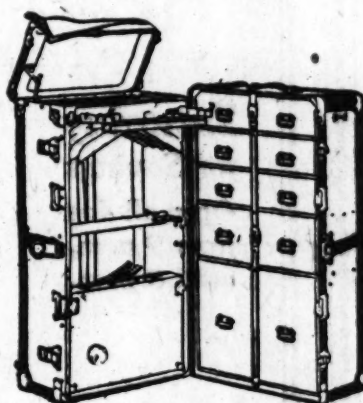

"The investigation is not over yet,"  
Prof. Philbrick said. "We know that  
there was something irregular at the  
house, but we are sure that none of the  
members or alumni are responsible."  
Two witnesses, whose names were  
not disclosed, one of whom was said  
to be the original complainant, ap-  
peared before the board. Last night,  
the embargo on the house was lifted.

## 100 WOMEN EACH DAY SNIP LONG LOCKS IN BERLIN

(Copyright 1933, By The Chicago Tribune.)  
BERLIN, Sept. 8.—Berlin is being  
modernized at the rate of 100 hairdres-  
sers a day, according to the report of the  
barbers' convention now in session.  
With 3,000 women deciding each month  
to have their long tresses removed in  
favor of the numerous styles of bobs,  
it is only a matter of arithmetic to  
determine when all the women of the  
German capital will have their hair  
bobbed. Though nearly all flappers  
are advocates of the short-hair fashion,  
many of the older generation boast of  
yard long tresses, but the barbers as-  
sert that even these will soon join the  
ranks of those asking for the  
"sweet 16" bob and neck shave.

## HARTMANN trunks and luggage for STUDENTS!

Dependable traveling accessories add  
pleasure to the student's trip to school and  
to the entire-school term as well. "Hart-  
mann" means quality and maximum travel  
service.

## To the Ladies

On another page of this news-  
paper is the first of a series of  
fashion sketches of the new  
creations of leading Parisian  
Couturiers.

With these new gowns will be  
shown the appropriate slippers,  
as this season I. Miller is show-  
ing a slipper for every fashion  
in frocks!

It is a rather radical departure  
to use the advertising columns  
of a newspaper to present  
fashion suggestions—and I. Miller  
would keenly welcome the com-  
ments of the gentler public.

Frankly, do you like to be "sold"  
or "served" in advertising?

## SPANISH TROOPS LANDED CLOSE TO MOORS' CAPITAL

Big Bombardment Opens Way for Advance.

(Continued from first page.)

600 troops to Tripoli. The official Stefani agency finally admitted today that there is a widespread uprising.

"The Italian aviators are extremely active and are bombarding without rest groups of Senussi and their herds, inflicting heavy losses on men and animals," the Stefani agency announces significantly.

The Italians, who have never passed the interior of this vast country, apparently are being driven back to the coast with considerable losses.

Led by Emir.

The revolt has been openly directed by Sheikh Ahmed, exiled chief of 3,000,000 members of the Senussi confraternity in northern and central Africa, whom Sultan Ibn Saoud of the Wahabi's recently appointed emir of Mecca as the first step to the caliphate of Islam.

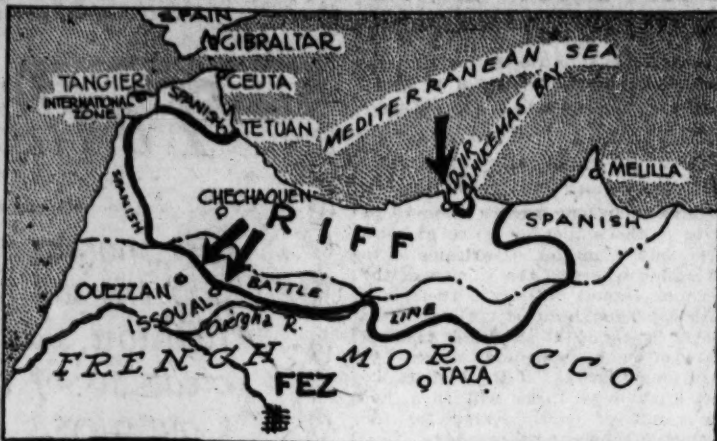

The Turkish government, which has never forgiven Italy for seizing Tripoli during the Balkan troubles, has sent military instructors via Egypt to train the Senussi in modern warfare, and has smuggled large quantities of arms and munitions to Tripoli in Turkish fishing boats, which slip through the Italian naval blockade at night.

Another reason for the Turkish assistance is that Mustafa Kemal Pasha and the group of military leaders around him are convinced that Premier Mussolini is going to try to seize all of western Anatolia on the first pretext. At a time when the British might get Italian help in the Mosul dispute, Kemal wants to keep the Italians busy in Tripoli.

French in Trip.

The French in Algeria and Tunis are now caught between one serious Mohammedan uprising in Morocco and another Mohammedan uprising in

## SPANIARDS GET FOOTING NEAR ADJIR

Dictator de Rivera unleashed King Alfonso yesterday that Spanish troops had succeeded in landing on the shores of Alhucemas bay, within five miles of Adzir, the Moroccan rebels' capital. The landing followed several days' bombardment of the coast.

Abd-el Krim, the Rif leader, according to French advice, is concentrating the pick of his army near Ouezzan and the Ouergha valley, and there is some belief he may take the offensive. It was announced at Fez that the French army is now fully prepared to attack, and may strike in connection with the Spanish drive on Adzir.

Tripoli. The grip of all the European powers in North Africa is seriously shaken.

Kemal is really playing a deep game, the big stake being to get within air bombardment distance of the Suez canal in order to have a club against Great Britain.

## TURKS THREATEN WAR IF BRITAIN IS GIVEN MOSUL

(Chicago Tribune Press Service.)

BERLIN, Sept. 2.—Turkey threatens war if the league of nations takes the vilayet of Mosul from them and gives the mandate to England.

Turkey's foreign minister, Tewfik Ruzhdi Bey, now at Geneva, is confident the league of nations will hear the plea of the Turks for Mosul. Tewfik does not talk war, but a vast number of Turks in central Europe are ready to return to their country and fight for the right of self determination in Mosul, which they say "is

Turkish and therefore has no reason to join Iraq, which is Arab." Turkish authorities say: "Even British statistics show that the Arabs are in minority in the district. England is trying to declare as Arab. England states there are 750,000 inhabitants in Mosul, with only 135,000 Arabs, but 570,000 Turks. Right is on our side, and also the power to fight a separation of part of the country which is wholly Turkish. We are now trusting to the fairness of the league of nations."

BREAKS NECK DYING; DEB. Gary, Ind., Sept. 2.—Edmund Clarke, 16, of 923 West 56th street, Chicago, died in St. Margaret's hospital, Hammond, as a result of breaking his neck when he dived into shallow water at Cedar lake.

## SHENANDOAH HEROES NOW REST AT ARLINGTON

Simple Military Services  
Held for Officers.

(Picture on back page.)  
(Chicago Tribune Press Service.)  
Washington, D. C., Sept. 8.—[Special.]—Four of the victims of the Shenandoah disaster were laid to rest today at Arlington National cemetery. Funeral services for Lieutenant Commander Zachary Lansdowne, commander of the ill-fated craft, took place this afternoon. Earlier in the day services were held for Lieutenant Commander Louis Hancock, Lieut. J. B. Lawrence, and Lieut. E. W. Sheppard. Simple military services were held over the flag draped coffins. Sailors and marines formed an escort for the bodies from the receiving vault at the cemetery, where they had been placed yesterday, to the graves.

One service sufficed for the three of them buried this morning. The navy band played "Nearer My God, to Thee," after which Capt. E. W. Scott, chief of chaplains of the navy, read from the scriptures and the Rev. Roland G. Nichols, Episcopal rector of First River, N. J., offered prayer. Secretary of the Navy Wilbur, Assistant Secretary of the Navy Robinson, Acting Secretary of War Davis, and Maj. Gen. John A. Lejeune, commander of the marine corps, were among officials in attendance.

Funeral for Commander Lansdowne. Greenville, O., Sept. 8.—[AP.]—Immense memorial services were held in the Chamber Memorial hall today for Commander Lansdowne, commander of the Shenandoah who died when the ship crashed on Thursday. Mrs. Elizabeth Lansdowne, mother of the dead commander, attended with members of her family.

Neglect of Bodies Refuted. Caldwell, O., Sept. 8.—[AP.]—Commander Jacob H. Klein, chief of the board of investigation into the causes of the wrecking of the Shenandoah and in charge of all work here subsequent to the disaster, declared today that the utmost care had been given to the bodies of the fourteen dead members of the crew.

"All of the bodies were mutilated," he said. "Our careful consideration told us that no relatives would want to see how mutilated they were. It was impossible to embalm some of the bodies. There was no way for us to procure uniforms. It would have been days before they could have arrived. We did not want to bury them in their shrouded dungarees [overall uniforms] so we purchased good, clean, white sheets and carefully wrapped the bodies in them. The caskets were beautiful. The noble county American Legion furnished flags for the caskets."

Looters to Be Prosecuted. Cincinnati, O., Sept. 8.—[AP.]—United States District Attorney Haveth E. Hau announced that he would institute prosecution against all persons who stole valuable parts of the airship Shenandoah, after it was wrecked. Department of justice agents had just returned from Caldwell, where they obtained evidence against a number of persons who carried off parts of the airship.

## POISON MISTAKEN FOR PILLS KILLS EVANSTON MAN

Roland H. Wallace, 36 years old, an insurance broker, died last night at the Evanston hospital from the effects of poison which he swallowed last Thursday in his apartment at the Orrington hotel. According to Dr. Harry Richter, who attended him, Wallace mistook the poison tablets for medicine which he used for chronic appendicitis and headaches.

An inquest will be held this morning at 1610 Maple avenue, Evanston police were not officially notified of the circumstances surrounding the death.

## MEXICAN SOLONS BACK CALLES ON AGRARIAN BILL

(Chicago Tribune Press Service.)  
Mexico City, Sept. 8.—Minister of Agriculture Leon today held a long conference with the leaders of the government party on agrarian legislation at the house of representatives. Before leaving he had the assurance that the party stood solidly behind the new agrarian bill drawn up by President Calles and the minister of agriculture and that the bill undoubtedly would become law. This means the ejidos, or communal lands, will be divided to form family homesteads, and that all traces of socialism will be wiped out of the agrarian program, which began as a strongly Socialistic movement.

## PASTOR TO SELL HOME TO AID IN BUILDING CHURCH

The Rev. Henry Clay Miller, pastor of the Marion avenue Baptist church of Aurora, notified his congregation yesterday that he and his wife would sell their new home and apply the proceeds, \$25,000, to the construction of a new church building. The old church burned recently and a new \$80,000 structure is now being erected. Members of the church were loud in praise of the action of the pastor, which was voluntary. The pastoral residence is in the best residential section of Aurora and was completed recently.

## 'DREAM HEROINE,' DR. CASE'S VIEW OF MRS. LELAND

Tells State Supreme Court  
Her Story Is Phantasy.

Mrs. Charlotte Leland, the middle aged church woman who told of love scenes with the Rev. Carl D. Case, Oak Park pastor, in a sensational divorce case a year ago, lived in a dream world wherein she pictured herself as a much sought after heroine, according to a brief filed in the State Supreme court yesterday.

Attorney Frederick A. Brown, representing Dr. Case, asked the high court to reverse the ruling of the Appellate court, which decided that Albert R. Leland was entitled to a divorce, because of his wife's confessed relations with her pastor, Judge Charles M. Foell, who heard the case originally, denied Leland's divorce plea.

Calls Her Story Dream. The brief ridicules the idea of a love affair between the minister and Mrs. Leland. It charges that Mrs. Leland's mind is unbalanced and that her testimony was all a product of her imagination.

Mrs. Leland must have been suffering from delusions, Attorney Brown said.

argues in the brief. No normal woman, he said, would proclaim her shame in the world in the almost complacent manner in which Mrs. Leland did. Judge Foell refused to believe her confession, according to the brief, which declares Judge Foell to have been more fit to judge the truth of her story than the Appellate court justices, who saw only printed pages of testimony, and not Mrs. Leland herself.

Cites Allentists' Testimony. The brief points to the testimony of

allentists, some of them employed by Mrs. Leland's attorneys, who termed her a "border line" case. Mrs. Leland never mentioned dates and there were no witnesses to corroborate her testimony, Mr. Brown said.

Jealousy of Miss May Brown, her husband's stenographer, caused Mrs. Leland to delude herself into believing Dr. Case had compromised her, the brief suggests.

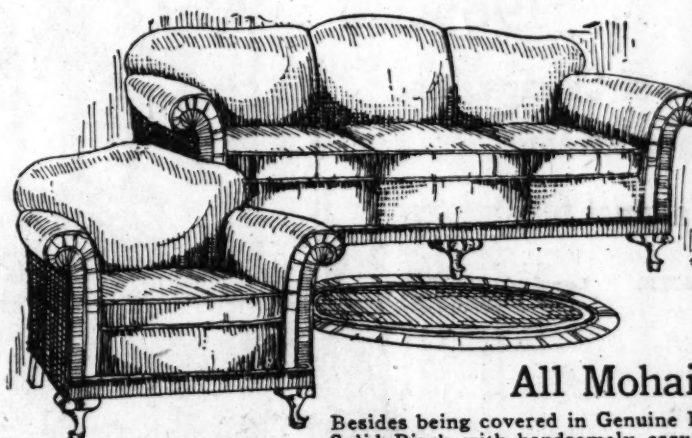

The case will be heard by the Supreme court this fall.

# NEW U. S. SAVING OF \$125,000,000 SEEN BY MADDEN

## Would Drop Estate Tax and Cut Surtax.

BY SCRUTATOR.

How much money is the next congress going to spend? Turn to the name of Martin B. Madden in the Congressional Directory. His autobiography there occupies one line and a half. After talking to Mr. Madden yesterday I am convinced that his idea of tapping the treasury is accurately repeated by the paucity of his demands upon the resources of the government printing office.

Mr. Madden's ideas are all interesting but his thoughts about public money are positively intriguing, because he happens to be chairman of the appropriations committee of the house of representatives, a committee that really rules appropriations since the inauguration of the budget system. Madden's chairmanship began with the budget system, and he became chairman because of the demand for a budget that would budget.

But you will read nothing of that in the Congressional Directory. His Choice Phenomenal. Nor will you learn anything there to explain the phenomenon by which the representative of a metropolitan district containing the nation's second largest money center has something to say about spending money. As a rule those functions are committed to representatives of districts that want the money, not those where the biggest taxes are paid. But there must be something unusual about the Madden family. It has succeeded in big city politics, and yet farms the farm that its forebears farmed in these parts back in 1837.

Mr. Madden answers questions in

of

**Life**  
At All News-stands—15 Cents

epigrams, not the whereas and whys which one comes to expect from statemen after some years in the interviewing business. For instance, he is in favor of repealing the federal inheritance taxes because "the government needs live taxpayers, not dead estates." Think that over—it's another version of the story of the goose and the golden eggs.

See Big Cut in Spending.

He believes that it will be possible to shave appropriations by \$125,000,000, and that the next congress will do it.

There was a surplus of \$250,000,000 last July 1, all of which has gone to reduce the national debt—and, of course, future interest charges. This makes a surplus of \$375,000,000 probable July 1, 1926, under the existing system.

A tax reduction of \$350,000,000 is in sight. Mr. Madden is in favor of a

reduction of the maximum surtax to 15 per cent. He summed up the folly of the high surtax theory substantially as follows: "No man who is required to pay 55 per cent of his income to the government is going to work very hard to increase his income."

He is convinced that a 15 per cent surtax will yield more money to the government than the present rate of 40 per cent. Reductions already made and the moderation of the tax on capital gains have proved that lower rates mean more revenue from the big incomes.

The normal rate on incomes up to \$5,000 should be lowered to 1 per cent. The maximum normal rate, he thinks, should not exceed 5 or 6 per cent. Mr. Madden opposes the total exemption of the smaller incomes, calling it suicidal and destructive of public interest in efficient government.

Would Drop Some "Nuisance Taxes." He favors repeal of some of the "nuisance taxes," especially those on theatrical admissions and automobiles. The motorist is already heavily taxed, he thinks. The gasoline tax levied by the states and applied to highway

construction is an almost ideal form of automobile taxation, he thinks, as the motorist then levies his own taxes in proportion to his use of the roads. The inheritance taxes not only bankrupt estates and destroy business activities, but have a tendency to force wealth into the form of trusts, he fears. This crystallizes wealth and creates fixed classes. Such taxes therefore prevent the survival of the fittest in the struggle for wealth and tend to create conditions under which incompetent inheritors of wealth are artificially protected from the rigors of economic struggle.

## Announcing

Chicago's Finest Men's Store at  
**20 EAST JACKSON BOULEVARD**

[ Between State and Wabash—Entire Second Floor ]

YOU are invited to an inspection of one of America's truly great stores for men.

The ideas and ideals of many years' development are expressed here in true metropolitan fashion.

For years the Ogilvie & Jacobs idea has been to one day present a store like this for the patronage of Chicago men.

It has been our privilege always to serve the kind of men to whom compromise and inferiority are intolerable.

And men have come to know that such is the substantial principle upon which this business has been built.

It will never be altered—except as it is improved. There can be no compromise—no inferiority in anything bearing the Ogilvie & Jacobs mark. Regarded as unique in the past—this clothes service reaches a degree

of perfection in our new, larger quarters, hitherto impossible.

We have expanded our lines. Presenting for Fall and Winter the most authentic and comprehensive selection of fine clothes we have ever assembled. Cloths from Britain and Scotland mingled with the finest the American markets afford. Many are exclusive—therefore not to be seen elsewhere.

A distinct pleasure awaits you in our new department of furnishings and hats. Here—under the same Ogilvie & Jacobs standard of quality—you may purchase dress requisites to suit the most refined taste. This department merits your special attention.

20 East Jackson is our new address. A new and greater spirit of service awaits you here at Chicago's finest men's store.

## Has your family outgrown one bathroom?

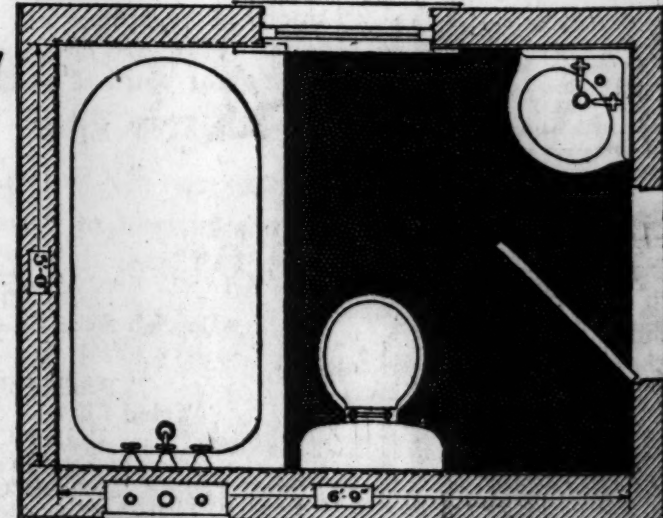

An extra bathroom will add not only to the comfort but also the value of a home

Countless old houses, built on generous lines when construction costs were low, need only an added bathroom with modern fixtures to make them as convenient and comfortable as new homes would be.

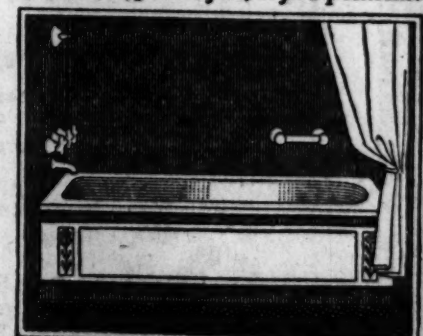

Because space was cheap, most of these old residences have large closets or broad hall ends which can be transformed at small expense into fine extra bathrooms.

Even narrow spaces can be utilized with Crane compact fixtures. Designed to economize room without sacrificing comfort, many are made in three sizes to fit almost any arrangement that is required.

Your plumbing contractor can help you find the place to put your extra bathroom. Call at any Crane Exhibit Room and find the fixtures that will serve you best. Write to Crane Co., Chicago, for "The New Art of Fine Bathrooms."

Above, a small space accommodates a complete bathroom. Below, Tarnia bath of cream-white enamel; may be had in 3 sizes: 5, 5½ and 6 feet; to fit 5 positions.

Kent corner lavatory of cream-white enamel in 2 sizes, 16 and 19 in.

# AUTO LEAPS INTO DITCH; GIRL DIES; DRIVER IS JAILED

County Toll for 1925 Is  
Raised to 522.

Mrs. Brea Byrne, 18 years old, 1221 South Tripp avenue, was instantly killed early yesterday when the automobile in which she was riding plunged over an embankment near Hillsboro, Ind. Mrs. Katharine Hogan, same address, was severely injured. Hugh Martin, the driver, was arrested and placed in jail pending an investigation. The party was en route from Indianapolis to Chicago when the accident occurred.

Three deaths in Cook county raised the 1925 toll to 522. James Wellman, 10 years old, 1324 South Sawyer avenue, died at the Mount Sinai hospital last night, a short time after he was struck by an automobile while attempting to cross South Sawyer avenue at Thirteenth street. Samuel Ginsberg, 1122 South Francisco street, driver of the car, was not held by the police.

Theodore Janz, 45 years old, 1618 1/2 Division street, died in the Mercy hospital of injuries received Monday when he was struck by an automobile in South parkway near the Field museum. Martin Bliz, 608 East 92d street, driver of the car, was held not responsible.

Milwaukee Boy Killed. John Jakabowski, 4 years old, 770 11th avenue, Milwaukee, was fatally injured last night when he was struck in front of 4841 South Racine avenue by an automobile driven by Raymond Dechatelets, 8304 South Ada street. The boy stepped from a car owned by his uncle, Ignatz Jakabowski of 4842 Justine street, into the path of Dechatelets' machine. He died soon after he reached the German Deaconess hospital. The police decided the accident was not the fault of Dechatelets and released him.

As they approached home after an automobile tour of Michigan, four residents of Maple Park, Ill., drove their automobile into the path of a Chicago, Milwaukee and St. Paul train on a crossing west of Aurora. Victor Nelson, aged 56, a farmer, was killed, and Martin Rasmussen, aged 58, his wife, and their son, Oscar, were badly injured.

Identify Woman Victim. A woman killed Monday night at 7th street and Wabash avenue was identified as Mrs. Anna Keating, 50 years old, 764 Oakwood boulevard, a maid at the Blackstone hotel.

Charles Lee, 67 years old, 2553 New England avenue, was probably fatally injured when he was knocked down and run over in front of his home by a motorcycle, on which two men were riding.

Joseph Wilman, 10 years old, 1329 South Sawyer avenue, was probably fatally injured when he was struck near his home by a car driven by Samuel J. Ginsberg, 1122 South Francisco avenue.

BOY FALLS FROM TREE; DIES. Drusha Krole, 13 years old, 2528 Luna street, died last night at Kerkira hospital of injuries he suffered Monday when he fell from a tree and landed on his head. A companion had climbed the tree.

## HANDS OF DEATH

The hands of the clock indicate the number of deaths by autos, guns, and moonshine in Cook county since Jan. 1. Yesterday was the two hundred and fifty-first day of 1925.

## METER FACTORY OWNED BY CITY, DEVER PROPOSAL

Sees Economy, Avoidance of "Fat Contracts."

Study of plans under which the city would manufacture water meters it is required to install by the recently adopted ordinance is to be the next step in the universal meterization program. It was announced by Mayor Dever yesterday.

Universal manufacture of the meters, in addition to materially reducing costs, will eliminate the possibility of contract graft, fears of which has inspired much opposition to the meter scheme, the mayor asserted.

**Dever Drafting Plan.**

Creation of a designing and manufacturing bureau within the department of public works, its employees to be classified in the civil service, will be suggested to Commissioner of Public Works A. A. Sprague, when he returns from his vacation, and to the city council when it resumes its session next month, the mayor continued.

"The city is going into a tremendous business when it undertakes to make its water," declared the mayor, "and for economy's sake as well as for other reasons, it should manufacture its own meters."

"I understand that all patents on water meters expired some time ago, and that is true, there can be no legal objection if the city determines on its own type of meter and makes them itself."

**Opposes "Fat Contract."**

"There has been much talk, before and since the passage of the meter ordinance, that certain politicians were interested in or buying themselves to get into meter manufacturing companies so as to share in the fat contracts that must be let unless the city makes its own equipment."

"Of course, these charges will give way to others that we are building up a huge payroll brigade if the city sets out to make its own meters."

"But I see no reason why a bureau cannot be established with its employees all included in the civil service, and at one time, get away from graft in contract awards and save a considerable amount of the estimated meter cost."

**SEND ROOMER TO HOSPITAL.**

Samuel Kozlowski, a roomer in the home of Walter Michewicz, 1930 South Turner street, was taken to St. Anthony's hospital yesterday suffering from stab wounds inflicted by Michewicz, who objected to rooming made by Kozlowski about Mrs. Michewicz and her daughter, Mary.

## JUDGE ON TRIAL FOR PERJURY IN McHENRY COUNTY

County Judge Charles F. Barnes of McHenry county and former State's Attorney Vincent S. Lumley, who are charged with perjury and subornation of perjury, went to trial yesterday at Woodstock.

The charges grew out of the prosecution of Fremont Hoy, veteran McHenry county banker, and his son

Clarence. Both men were convicted two years ago and sent to the penitentiary to serve a term of one to ten years for alleged irregular financial operations. Although their bank survived, their personal fortunes were wiped out.

Friends of the bankers, believing that improper methods were used in obtaining their conviction, pressed the charges against Barnes and Lumley, who were indicted by a special grand jury eight weeks ago. Circuit Judge Reynolds is presiding at the trial, as Circuit Judge Edward Shurtliff of McHenry county will be a state witness.

## Men's Hats with inherent Supremacy of Style

Snug fit for Fall winds, light weight for comfort, designed for utility as well as good looks—these features are sufficient reasons for the popularity of A. Starr Best MEN'S HATS. They are priced low, and you will find them in shapes and colors to suit individual demands.

**For Warm Hours**—a two-toned satin Boudoir Coat with flat ruching trimming around the neck, sleeves and border. In almost any shade you wish, pastel or brilliant, priced at \$14.75.

**For Chilly Hours**—a Robe of corduroy, beautifully lined with puff trimming of the corduroy in all new shades, \$12.50.

Negligees, Fifth Floor, South, State

## Girdles That Will Fit Into Active School Days

The Girdle should be comfortably pliable and at the same time give support enough to keep young figures trim and firm. Of the extensive variety of styles we are showing, one is sketched. Of pink and gold color brocade, 14-inch length, \$7.50. The long-line Brassiere has the added comfort of an elastic section at the waistline. \$2.

Corsets, Fifth Floor, South, Wabash

## Jersey Silk Undergarments At September Prices

**Two-piece Sets**—in delightful color combinations. Vest, \$2.50; Drawer, \$2.75; Chemise, \$2.75. **Bloomers**—in Milanese jersey, petal style, \$3.75.

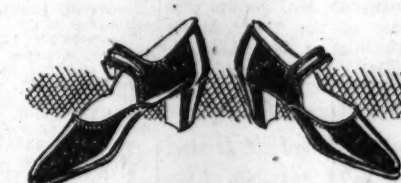

Jersey Silk, Fifth Floor, South, Wabash

## The Turban Returns

Not the stiff Turbans worn in other seasons, but the soft pliable Hat, fitting the head closely, practical and becoming. In double-faced satins, velvet, hatter's plush, felt and novelties in all late shades, \$10 to \$25.

English and American Rooms, Fifth Floor, North

## Field's "Nanon," \$13.50

Pack this pair for school, as it is one of the versatile styles that seem to fit in anywhere, from the classroom to an afternoon tea. Patent, black or brown kid.

Shoes, Fourth Floor, South, State

## "WHAT'S NEW AT FIELD'S"

### The Fabrics—

are to be more gorgeous than the court robes in the days of the Louis. Brocades, Velours, Metaliques, Iridescent; Velvets so fine and soft that a gown is a mere handful; Laces that are shimmering cobwebs of silver and gold; glittering paste gems on chiffon grounds; all these will animate the new season.

### The Furbelows—

should be of one accord. Each accessory of the costume such as the purse, hose, kerchief, scarf, or lapel flower, must be carefully chosen with relation to the other accessories toward the end of chic. Paris uses plaids and checks for purses; gloves should be just long enough to wrinkle; buckles gleam on the smartest shoes; jewelry is less barbaric.

### The Flairs—

or flares, one might say, for in almost every new garment from the sheers dance frock to the richest fur coat is noted this tendency to sway into fullness just below the waist. Other style flairs are high collars, Eton jackets, trimmings of gold kid, two-piece frocks even for formal wear, small hats with restraint in trimming.

### Silk Petticoats

**And Bloomers, Unusual Values At \$3.95**

The milanese jersey Petticoat sketched, edged with silk fringe, may be had in the smart fall shades. A radium Petticoat in the step-in style, not shown, has embroidered motifs around the hem.

The jersey silk Bloomers are made in six distinct styles, all thoroughly fine in quality and workmanship. All these garments are priced at \$3.95.

Fifth Floor, South, State

## A Most Important Selling of Coats for 1 to 6

This is a worthwhile introduction to the new fall coat season for little one-to-sixes, as mothers will be quick to appreciate. Made with the most exacting attention to tailoring, finish and style; cut in full sizes from pure foreign and domestic wools; well-lined and with deep hems that can be let down.

**\$19.75**—Germania chinchilla, with nutria. Cranberry, blue, rust, green, cocoa, cinnamon. 2 to 6. First.

Hats, \$3.95 and \$4.50.

**\$17.50**—All wool polo, fur collars. Tan, blue, peach, rose, green, 2 to 6. Second.

Tam to match, \$3.50.

**\$15.75**—Germania chinchilla, double breasted, blue, buff, green, with matching velvet collar, 1 to 6. Third.

Hats with feather, \$6.50; Leggings, \$8.95.

INFANTS' COATS, INFANTS' ROOM, JUNIOR FLOOR, THE 4TH

In every particular, indeed, they are Marshall Field & Company quality. With this assurance, the prices in the selling have real meaning. Colors are charming, matched in every case (and in material, too) by a becoming Hat or Bonnet, moderately priced. The six Coats sketched were chosen from many equally delightful styles.

**\$10.75**—Cheviot, navy blue, good weight, lined half in red flannel, half in black satin. 2 to 6. Fourth.

Hats, many styles, \$4.50.

**\$25.75**—3-piece set for ages 1, 2, 3. Washable blanket cloth, gold, blue, rose. Trimmed in white wool. Fifth.

Set of Coat, Hat, Leggings.

**\$12.75**—All wool Polo sister Coat. Fur collar, full flare and pockets. Tan, blue, and other shades. Sixth.

Hats, several styles, with fur, \$5.95.

## Elmer's Dials Locate Static, Joyful Tunes

Music from Movie Gives  
Him a Surprise.

BY ELMER DOUGLASS.

Static was so pronounced that it was noticed on all but the closest of Chicago stations.

Beginning at the bottom of the dial at 7 o'clock, it was a real treat to listen with the artists at my mystery station, WPKR. A little higher on the dial, the Triphon ensemble and assisting soloists were found at that full, pure toned station WMBB. Also for a little while with WBCN, noting that the announcing at this station is slowly taking on more class and dignity.

Skipping up high to WQJ, Chi-KAW, go, hearing our good radio violinist, Henrietta Nolan, but taking particular fancy to Rainbo dance orchestra announcer for his West, catchy, individual way of peeping out of his network of instruments and popping "WQJ, Chicago." This man would seem to deserve promotion to a major announcer, serving promotion to a major announcer, serving promotion to a major announcer.

WLS had a special Stephen Foster program that was good, but since I am feeling my way, comment on the running description by the announcer is deferred for further study.

The radio audience is undoubtedly more familiar with the new high power station, WENR, than I am at present, so, feeling my way in this paragraph, I am refraining from anything assertive, except that it is a powerful station all right, and very pure in tone. Won't be too severe on the announcer, although "And now" Mr. So and So will play "for you" sounded archaic.

The W-G-N production company's fine reputation of the "Student Prince" must be mentioned, only this time with "Deep in My Heart, Dear" regrets. It seemed strange indeed to find WLS on a Tuesday night signing off at 9 o'clock in favor of WCBZ, Zion. That is commendable of WLS.

The 9:45 hour was spent solidly with WEHH and its Uptown theater broadcast, for the quality of the music was a continuous source of surprise. Beginning with popular selections from "Carmen" and "Il Trovatore," in a few minutes the tones of harp, piano and the other forty stringed instruments in this orchestra were pouring out tones of Chopin selections—and this in a movie theater! We of the radio audience could not see the mystic blue-purple lights within the theater's dome, nor watch the moving scene, but instead we were right there in the orchestra pit with our ears firing with the instruments.

### WIFE DESERTED, DIVORCE PLEA OF KRUTCHKOFF

Suit for divorce has been filed by Charles Krutchkoff, member of the board of assessors, against Mrs. Maud Bachelder Krutchkoff, charging desertion, it was learned yesterday.

The suit was filed Saturday, but not entered on the court records. The files were taken up by Attorney William F. McLaughlin. Clerk Samuel Erickson denied any responsibility for that procedure.

The Krutchkoffs were married in 1903 and separated four years ago, according to the bill. Mrs. Krutchkoff left her husband and is now in California with her daughter, Terry, who is 16. There is a son, Charles Jr., 21.

### Hawaii Prepares Grand Welcome for U. S. Fleet

HONOLULU, Sept. 8.—(AP)—Plans were completed here today for entertainment of the United States fleet when it returns tomorrow for a fortnight's stay in Hawaii before continuing on the last lap of the home-ward cruise from Australia. Official dinners, receptions and community entertainments have been arranged.

## LITTLE ORPHAN ANNIE: Who Said the Hand Is Quicker than the Eye?

## RADIO PROGRAMS FOR TODAY

(Wednesday, Sept. 9)

(Daylight saving time throughout)

**H**EADLINING the 8:30 hour of music from W-G-N, the Chicago Lyric Trio, Miss Catherine White, soprano; Carolyn Quackenbush, mezzo-soprano, and Hilda Groenman, contralto. They will be heard in a series of semi-classical numbers. Leon Lichtenfeld, pianist; Leon Benditsky, pianist, and Armand Buisseret, violinist, who compose the W-G-N trio, are also scheduled for this hour.

Les Cameron and Walter Felt, a snappy singing duo, and the McVicker's Syncopators, the boys who make music from kitchenware, as well as banjos and violins in to give Maurice Blumenthal and his Drake hotel dance orchestra a race for honors during the 10:30-11:30 p. m. jazz scamp.

Ladies who've been wondering how to fit the radio set in with their renaissance furniture and decoration should listen for "The Radio Cabinet—the New Piece of Furniture," another of those interesting talks on interior decoration by Walter Murray, decorative adviser to O. V. Richardson & Co., during Rocking Chair time at 2:30.

**DETAILS OF TODAY'S W-G-N PROGRAM.** (Wave length, 370 meters.) 12:40 to 2:30 p. m.—Lunchtime concert by the Drake hotel ensemble and the Blackstone string quintet. 2:30 p. m.—Rocking chair time. Walter Murray, decorative adviser to O. V. Richardson & Co., on "The Radio Cabinet—the New Piece of Furniture." 6:20 p. m.—Closing stock quotations by Paul H. Davis & Co. 6:30 to 7:30 p. m.—Dinner concert by the Drake hotel ensemble and the Blackstone string quintet.

### PLAN MEMORIAL MEETING FOR VICTOR LAWSON

A memorial meeting in honor of the late Victor F. Lawson will be held tomorrow at 1:15 p. m. in the lounge of the City Club. Members of the club and their families and friends, both men and women, have been invited to attend.

S. J. Duncan-Clark, vice president, will preside in the absence of Walter F. Fisher, the president. Allen B. Pond, former president of the club and a leader in the Municipal Voters League, and Charles H. Dennis will be among the speakers. Mr. Dennis was managing editor of the Daily News during the lifetime of Mr. Lawson and is now editor.

### \$19 an Hour Blind Beggar Not in Court; Forfeit Bond

Thomas Mallett, 22 years old, of the Plaza hotel, who is alleged by the police to make \$19 an hour as a blind beggar, failed to appear in the South Clark street court yesterday to answer a charge of disorderly conduct. Arthur Prudhomme, 838 Eastwood avenue, also a beggar, was missing, and Judge Hayes ordered their bonds of \$50 forfeited. Six other men caught begging in the loop were fined \$5 and costs each.

### ON W-G-N TODAY

HILDA GROENMAN. WALTER FELT. (Drake Studio Photo) (Copyright, Drake Studio.)

stone string quintet. 9:30 to 9:45 p. m.—Chicago Lyric Trio, W-G-N string trio. 10:30 to 11:30 p. m.—Les Cameron and Walter Felt, McVicker's Syncopators, Maurice Blumenthal, and Drake hotel dance orchestra.

## SMALL DELAYS JOLIET'S O. K. ON WATERWAY LINK

Gov. Small's new department of purchases and construction was interested in other matters yesterday when the Joliet city council met to place its O. K. on an important link of the Illinois waterway. As a result, the council expressed its disgust, adjourned, and thus insures another delay in the waterway program.

Gov. Small's son, Leslie, is head of the department. William V. Mulvihill of the Lundin organization, is superintendent of waterways by recent appointment of the governor.

**Letter Only Thing Needed.**  
Precisely all Leslie or Mulvihill had to do yesterday was send a letter to the Joliet council courteously requesting that plans incident to the construction of the Brandon Roads lock and dam be approved.

Everything else had been done by W. G. Barnes, chief waterway engineer who sent a general outlay of the plans to Mayor Schering two weeks ago, expecting that officials higher up would find time to write a letter formally presenting the matter to the council.

**Council Ready to Act.**  
Meantime the mayor engaged some associate engineers to go over the plans in anticipation of a communication from Leslie Small or Mulvihill. When the city council met yesterday it was all set with its approval, but had nothing to approve officially.

Three contracts are to be awarded in connection with the Brandon Roads lock. The first is for retaining walls and utility tunnels at Joliet to carry wires and water and gas mains under the river. The second is for bridges and the third for the lock and dam.

Gov. Small has announced "Full speed ahead with the waterway."

**Remus Released by Judge, but Is at Once Rearrested**  
Cincinnati, O., Sept. 8.—(AP)—An entry was ordered by Federal District Judge Hickenlooper today discharging George Remus, former Cincinnati bootlegger, from the county jail at Dayton, O., where he was confined after his release from the penitentiary at Atlanta. But Remus was rearrested immediately on a warrant based on an indictment returned at St. Louis.

## EX-CONVICT HELD AS LOVERS' LANE BANDIT LEADER

(Picture on back page.)

In the person of George McNamara, 24, an ex-convict who was seized last night in his home, 12308 Westworth avenue, police believe they have the leader of a gang of bandits who claimed a score of robberies in the "Lovers' Lane" district around Vermont and Halsted streets by shooting a girl and a policeman during a hold-up Tuesday night.

The two victims who identified McNamara as their assailant are Policeman William Krause of the Kensington station, and Miss Mary Fago, 15 East 120th street. The gang which McNamara is alleged to have headed was interrupted in its work of robbing Miss Fago and her three companions by Krause.

McNamara, who served four years in Joliet for burglary and who was paroled three times from Pontiac reformatory, did not take kindly to arrest. While being questioned by Sgt. Jacob Borst in the Kensington police station, he seized a telephone and attempted to stab Borst. Several policemen were necessary to subdue him. Three other suspects, said to be McNamara's henchmen, were arrested earlier.

## LYNCH TAKES UP REINS AS CHIEF JUSTICE

Chief Justice Thomas J. Lynch officially opened the fall term in the Criminal courts yesterday. His first act was to organize the September grand jury. Richard Heinze, 2934 North Sawyer street, was chosen foreman.

Leroy Fairbank, assistant state's attorney in charge of the grand jury, announced that there will be morning and afternoon sessions until the 6th cases for the jury to consider are heard.

Judge Lynch and six associates will hear the 1,140 indictments pending.

## Mary McDowell Takes Rest Threatened with Arthritis

Miss Mary E. McDowell, city commissioner of public welfare, will be absent from her duties for the next three weeks. Her physician ordered a rest because Miss McDowell has a tendency to arthritis. Marie G. Merrill, her assistant, will be in charge of the office during the absence of the commissioner.

**FALL INJURES POLICEMAN.**  
Sgt. Edward Martin fell down a flight of stairs at the Grand Crossing station yesterday and seriously injured his spine. He was taken to his home at 1354 Marquette road.

## JURY HAS SAY ON COLOR LINE AND THEOLOGY

(Picture on back page.)

David Lazarus and Caino Stinson came into Judge Harry Hamlin's court yesterday. Skull caps concealing long black tresses, beards very long and black and curly, those two colored men, as "elders of the Temple of the Kingdom of the Gospel," as witnesses, appeared to defend Elizabeth Miller, from Mississippi.

Nat and Sam Holleb, 657 West Randolph street, said it was false pretenses for a colored woman to ask money for a temple at 1850 West Lake street saying it had a Jewish congregation, of whom she was one.

Lazarus and Caino tried their theology on Judge, the jury, and spectators. They argued that all colored people are Jews, quoting the Bible as saying there are only Jews and Gentiles. Their own sect, they said, was chartered by the state of Illinois.

A verdict of not guilty was returned by the jury. The organization for which funds were solicited of Nat and Sam on July 27 is known as the Relief Association of Hebrew Settlement Workers.

### Formal presentation of original Paris hats

Just received, direct from the source of their inspiration, these most recent versions of the "mode-to-be" for fall.

Importations from

Le Monnier—  
Maria Guy—  
Rose Descat—  
Marthe Regnier—  
Maison Alex—  
Molyneux—  
Susy—  
Louison—  
Maison Lewis—

Also included are many other exclusive models from equally smart houses

Of particular note

Colors—not the simple shades of other seasons, but subtle, new shades have appeared in the lime light. They are soft velvets, velours, and felts, becoming to almost any type and in keeping with the rich mood of autumn and early winter.

Sizes for both bobbed and coiffured heads. Price range, \$20 to \$55. Millinery, Fifth floor, State.

### Tailored frocks of new woolen fabrics use bright trimmings

\$40 for women \$65

### Smart for autumn wear without coats

Two special groups show close adherence to the more distinctive fashion tendencies. Long sleeves are used in all models—whether flared, straight-line or coat style.

The mode in ornamentation could scarcely be more charming. Scintillating tinsel is used with braid and multi-colored embroidery. Brocaded chiffon or applique furnish color.

Women's frocks, fourth floor, State.

### From the Far East Quilted satin robes

All silk lined 16.75

Long set-in sleeves Full fashioning and silk linings throughout are rarely found in robes at this moderate price. The satin is lined in harmonizing or contrasting shades.

Women's and misses' sizes come in a wide range of vivid colors or black. For your school or winter wardrobe. Third floor, State.

## Henry C. Lytton & Sons

STATE at JACKSON—on the Northeast Corner

### Very special offering: 40-inch georgette crepe

All silk 1.58 excellent quality

### Your Autumn Dance Frocks

in those graceful godet and flared styles will be smart in this sheer fabric. And you may choose from many fall shades as well as ivory or black.

Ladies Home Journal patterns—second floor.

### New and distinctive styles in Crepe de chine chemises

### Tailored or exquisitely trimmed

Here is a collection so varied, so large, that you will revel in selecting from it.

### For daintiness

—full length pleats, embroidered nets, real fillet, binche and valenciennes laces or tailored hemstitching are effectively used.

### For color

—you may choose your favorite shade—flesh, peach, delicate maize, orchid or fashionable Nile green, in many styles.

Third floor, State.

### Compact by Poirette

The correct foundation for fall frocks

A single combination garment, especially designed to impart that soft, flexible, straight line and to eliminate all brassiere difficulty. It properly proportions excess flesh.

### Sketched at right

Medium length, 12.50  
Long length . . 13.50  
Striped rayon jersey in pink is combined with knitted elastic.

### At lower right—

of hand loomed elastic  
Medium length . \$16  
Long length . . \$17  
Pink silk broche and hand-loomed elastic with rayon jersey top.

Ten styles range in price from 12.50 to 37.50.  
Fifth floor, State.

### Distinctive

### Sample footwear

5.85

Size 4 B only

Hundreds of pairs of smart, well made shoes include styles for all occasions. Patent leather, colored kid or suedes, gold or silver brocade and satins are all featured in the latest fall styles.

Fifth floor, State.

## ODDS AGAINST HYLAN 4 TO 1 AND NO TAKERS

(Continued from first page.)

Walker if Walker should be nominated. It is pointed out, however, that the mayor did not condition his regularity upon support by a majority of the five borough leaders, but upon support by the leaders of the majority of the regular organizations in the five boroughs.

There are numerous organizations in the five boroughs and so many of them have deserted Hyman that the

fulfillment of his condition is already open to question. From within the Hyman camp emanates the view that if the mayor should be badly beaten he will not run independently, but that if he should lose by a comparatively small majority he will lead a Hyman-Hylan third party ticket.

In any event, Hyman will urge Hylan, if defeated in the primary, to become an independent candidate. Hyman again has declared himself out of the Democratic party. Gov. Smith last week demanded by what right Hyman, from his California ranch, is assuming to dictate to New York Democrats, asserting that the publisher is not enrolled in the Democratic party, is not a registered voter and could not participate in the Democratic party, is not a registered voter admitted all this, saying he is not a Democrat but an independent in politics.

In and Out Many Times. This does not mean necessarily, however, that Hyman has definitely stepped out of the Democratic party and would

not be a candidate for the Democratic nomination for senator or governor next year or for President in 1928, if he and Hyman should defeat Smith and Tammany in this struggle for control of the Democratic party in New York. Mr. Hyman has been in and out of the Democratic party, as it suited his purpose, for some twenty years.

The only time he ever was elected to office was when he went to congress two successive terms—as a regular Democratic candidate and a Tammany candidate, at that. In 1904 he was a candidate for the Democratic nomination for President and in 1905 an independent candidate for mayor of New York City. In 1908 he was nominated for governor of New York at the behest of Boss Murphy of Tammany. Tom Grady, who did the bidding of Murphy in the credentials committee of the state convention, seating Hyman and unseating anti-Hyman delegates, said later: "It was the dirtiest day's work of my life."

Hyman sponsored the Independence League third party national ticket. In 1922 he was a candidate for the re-

in Democratic nomination for either governor or senator.

In a letter to the New York World denying he is Hyman's boss, Hyman says that if he were Hyman would not have entered this primary, but would have defied Tammany and run as an independent from the start. Mr. Hyman would not take his advice, nor, apparently, would his newspapers, which last spring were soft-soaping Tammany and subtly assuring Gov. Smith that there would be no opposition to his political ambitions next year or in 1928 if he would endorse Hyman for renomination.

Pictured Reformed Tiger.

From the Hyman papers of those days one came to the conclusion that Tammany had reformed; no blistering cartoons or leaders picturing Tammany corruption. The tiger had become a good tiger, it seemed. But no, such was not the case. When Tammany turned down Hyman the Hyman papers opened all batteries, from editorials to comics, on the Tammany wigwag, and we now learn that it's the same old venal, predaceous, depraved aggregation of political and financial crooks.

## SEE CHANCE FOR CHICAGO TO GET NEW POSTOFFICE

Swampscott, Mass., Sept. 8.—[Special.]—Chicago's chances of obtaining a new postoffice building were boosted today when it was made known that President Coolidge will agree to the passage of some kind of a general public buildings bill during the coming session of congress.

The President was said to be so anxious to push through a public buildings bill for the District of Columbia that he will agree to the general bill to get it.

In view of the urgent need of better postal facilities at Chicago, it is believed that a building there would be one of the first constructed. The new Chicago postoffice has the general approval of Postmaster General New and Secretary Mellon.

BROTHERS DROWN IN ROCK RIVER. De Kalb, Ill., Sept. 8.—(AP)—Leonard and Charles Egan, brothers, 17 and 19 years old, respectively, of De Kalb were drowned in Rock river, near Oregon, Ill.

# Firestone

## Tire Prices Are LOW Crude Rubber Highest In Years

### Buy Now and Save Money!

The unprecedented demand for Firestone quality and mileage has more than doubled the sales of Gum-Dipped Cords to car owners so far this year, enabling us—because of this tremendous volume—to keep prices low.

Experienced car owners insist on tires that deliver the greatest mileage at the lowest cost per mile, because such tires last longer—make the restricted rubber supply go further—reduce crude rubber costs—and help maintain the present low tire prices.

Gum-Dipping, the Firestone extra process, is also one of the biggest and most important economy factors in tire performance. This method of treating cord fabric, developed by Firestone Tire chemists and engineers, insulates every fiber of every cord with rubber, and gives the sidewalls the extra strength to withstand the extra flexing strain—insuring maximum safety, comfort and economy.

Buy now—make sure of economical transportation by obtaining these outstanding Firestone superiorities at present low prices.

## 3 U.S. SENATORS TELL HOW LEAGUE IMPRESSED THEM

(Picture on back page.)

GENEVA, Sept. 8.—(P)—Three United States senators who attended the first two days' session of the league of nations assembly have given the Associated Press statements conveying their impressions and reactions. They are Senators Thomas J. Walsh (Dem., Mont.), Arthur Capper (Rep., Kas.) and Andrew A. Jones (Dem., N. M.).

"No one, I venture to assert, who has not steered himself against emotion, could fail to be profoundly impressed by the extraordinary assemblage which yesterday in this city entered upon the consideration of problems more or less directly involving the peace of the world," Senator Walsh said.

"When, on the election of the president of the assembly, the roll of nations, representing fifty-four in all, was called and one by one the delegates designated—not infrequently the foreign minister of some one of the powers or a statesman whose name fills the earth—responded, the momentous nature of the occasion was made gravely evident.

"A Harbinger of War's End."

"When the audience was reminded by the presiding officer, the premier of France, that the session just begun was the sixth annual gathering and he reviewed the work of the league, particularly during the year just passed, one could not fail to realize that the institution represented in the meeting was, whatever may be its destiny, a world force and harbinger of the day, however distant, when war shall be no more.

"Nor could one fail to find a significance of greatest consequence in the fact that the delegate from Canada (Senator Dandurand) was chosen president of the assembly for the ensuing year. It brought home in a forceful way the undeniable fact that, however firm or however tenuous may be the ties that bind the units of the British empire, so much of the world as congregated here accords them the status of independent nations."

Capper Against U. S. Joining.  
Senator Capper, who left Geneva tonight for Paris, said before his departure that he had been greatly impressed by what he had seen in the assembly's sessions.

"I think the league is on the right track," he said, "and is doing some good work, with possibilities of accomplishing a good deal more. However,

I have not changed from the view I have held for several years. I still think it inadvisable for the United States to join the league."

Jones Greatly Impressed.  
Senator Jones summed up his impressions as follows:

"The picture as I saw it yesterday was decidedly impressive to me—a picture of inspiration and sadness. I was inspired by the thought that representatives of these fifty-four nations were meeting together for the advancement of civilization and world peace. I also was impressed by the thought that the constant meeting of these representatives from year to year not only has to some extent removed already a feeling of restraint in the discussion of international questions, but also by the conviction that this tendency will become more evident every year.

"The league is growing in prestige. Its power for good is measurably increasing. There is no thought here of a super-government. The prime purpose should be to discuss openly and freely international problems and arrive at mutual understandings.

"The sad part of the picture arises from the fact that the United States has no representative to sit in the conference and discuss measures which affect the welfare and the peace of the world. I hope the American people may get a correct understanding of the real situation."

BOYS FALL FROM TREE, INJURED.  
Two boys who fell from a tree yesterday at Central avenue and Altgeld street are in the Keystone hospital. Bruta Kroll, 13 years old, 2528 Luna avenue, suffered a fractured skull, a broken arm, and internal injuries. Joseph Minick, 10 years old, 2522 Luna avenue, has six fractured ribs and internal injuries.

## CARSON PIRIE SCOTT & Co

New Velours Hats  
Untrimmed and Ready-to-Trim  
\$5 to \$13.75

Charming hats may be developed from these, so smart they are in line. And the result is so satisfactory, as the wearer may trim according to her own tastes.

Rose shades, old blue, wood browns, purple, peppermint green and pencil blue. Prices vary with the style, \$5 to \$13.75.

Pins and Ornaments of Metal or Ribbon, Priced According to Kind.  
Fifth Floor, South.

In the Gray Shop  
New Silk Frocks, \$27.50  
In the Extra and Larger Sizes

One of the most interesting groups that have been featured here this season, for it brings the utility frock for fall in six different and very attractive versions.

The Frock Sketched  
Is Embroidered

This frock is of crepe de Chine—the panel effect gives a long, slenderizing line. In black, navy blue and brown. \$27.50.

Another frock has touches of metallic embroidery. Still another has pipings in color. Others are tucked or trimmed with braid embroidery. \$27.50 each.  
Ninth Floor, North.

Park Strollers of Fiber Reed  
Specially Made for Baby's Comfort  
At \$21.50

These are excellent choice for baby's daily outings in the golden days of autumn. For they are good-looking and have practical features which commend them especially.

"Easy" Reclining Backs  
Adjustable Dashes for the Feet  
And Long Tubular Pushers

Linings are of corduroy, which assures long service. Artillery wheels greatly facilitate the ease of operation. Note the sketch: \$21.50.

In Shades of Tan, Gray, Midnight Blue.  
Seventh Floor, South.

"Hurt" Books Reduced  
Bring Standard Editions Upon  
Many Subjects at Low Prices

During the recent alterations here many books have been soiled from handling. These have been priced much below usual for clearance.

Here is splendid opportunity to purchase many of the books long desired. Also featured—

"A Short History of the World"  
By H. G. Wells, \$1.75

H. G. Wells' famous history of the world's progress from earliest to modern times. The Mac-Millan edition with more than 200 illustrations. Exceptional value at \$1.75.

Fountain Pens, Special, \$1

The points are of gold with iridium tips. Cases in red, green, mottled brown, black. \$1.  
Wabash Avenue Bookstore

Two-Piece Jersey Frocks  
For Sports Wear, Priced \$25

The trim "tailored" look of these frocks and the soft, pliable texture of the jersey combine to make a sports frock that is good choice for the active participant and the interested spectator.

Collar and Cuffs  
Of Crepe de Chine

When the frock is in navy blue, these are in tan; when the frock is chosen in pencil blue, Larvin green, or beige, the silk is in color to harmonize. Sketched. Interestingly priced, \$25.

Fourth Floor, South.

In the Section of  
Moderately Priced Frocks  
Frocks of Satin, \$17.50

Here is a frock that is just enough "dress up" to serve for the afternoon occasions of early fall.

And in the low pricing is evident the economy of selection here.

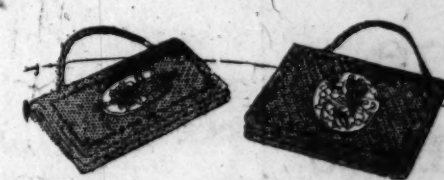

Soft Jabot and  
Puffed Under-Sleeves  
Of Creamy Lace

The dress is of soft satin with tucking. In ecru, pencil blue or rust.

These frocks may be had in sizes "36" to "44." Sketched. \$17.50.

Fourth Floor, East.

Leather Hand-Bags  
\$10.50 and \$14.50

Just from abroad, these have the "differences" which make them a delightful accessory for the new fall outfit.

Motifs in Petit-Point Pattern  
And Tooling in Gold

These contrast with the bottle green or nut brown of the ecresse leather. Sketched. According to kind, \$10.50 and \$14.50.  
First Floor, North.

Tailored Blanket Robes  
For Little Girls, \$2.95 and \$3.95

To be ready for the chilly mornings, such cozy robes are chosen.

In varied colorful plaids and stripes. Sizes 2 to 16 years. Sketched right. \$2.95 and \$3.95.

Flannelette  
Pajamas, \$1.95

In the style one sees sketched at left. Sizes 6 to 16 years. 1.95.

Third Floor, North.

Trim House Dresses, \$2.95  
One of Many New Styles for Fall

The lines are smart—the fabrics serviceable, women will find these very satisfactory choice.

The cotton crash is in light and dark green, gray and red, and other combinations. At the right. \$2.95.

"Tailored" House  
Dresses, \$5

The fabric is trimming. In black with red, green or white, orange and blue, blue and tan. At left. \$5.

Third Floor, East.

## LABOR SMASHES REDS' SCHEME TO SHACKLE BRITAIN

BY DON SKENE.

[Chicago Tribune Press Service.]  
[Copyright: 1925: By The Chicago Tribune.]  
LONDON, Sept. 8.—The reds suffered greatly at Scarborough today when the trade union congress, representing more than 4,000,000 trade unionists, shelved the reds' proposal to give the general council full power to call a general strike.

The proposal virtually was killed after a stormy scene, featured by a peppery verbal clash between J. H. Thomas, member of parliament, representing the powerful railway men's union, who led the opposition to the scheme, and A. J. Cook, leader of the miners, who fought hard for the measure, which would place supreme power for calling a general strike in the hands of the general council.

### Congress Sees Trick.

The Cook faction tried to put over the scheme in a sugar coated pill, but the congress saw the meaning of the proposal.

Delegate Naylor of the London Society of Compositors, said the adoption of such a proposal would mark the first step in the destruction of the trade union movement. Delegate Fincherlake, representing the printing compositors, pointed out that a general strike would halt the production of everything, even the workers' own food, drink, and babies' milk. The proposal was sent to the general council for further consideration and full report at an indefinite date.

### Police Issue Warning.

While the red efforts were getting a rebuff at Scarborough, Scotland Yard sent an official warning to all the London police stations to prepare against a widespread window smashing campaign organized by the communists against the national sailors and firemen's union and similar organizations. Scotland Yard also is ready to launch a vigorous campaign against the communists' seditious propaganda among 50,000 troops concentrated between Andover and Winchester for maneuvers. It has collected sufficient evidence to warrant wholesale arrests.

### Communists Receive Majestic.

New York, Sept. 8.—(AP)—The steamer Majestic of the White Star line, the first large trans-Atlantic liner to leave England since the beginning of the dockmen's strike in British ports, was greeted upon its arrival today by 200 persons styling themselves as communists, who termed the ship a "scab."

The demonstration was aimed primarily at Morris Hillquit, once socialist candidate for mayor of New York City, and Jenny Goldstein Gabel, of the Jewish People's theater, who were passengers. The demonstrators carried banners criticizing them for traveling on a "scab" ship.

## The Genius of the Masters

WELTE-MIGNON\* brings the art of the greatest pianists into your home. Only a touch is needed to release the genius of Paderewski, De Pachmann—and hundreds of the greatest pianists the world has ever known.

### YOUR PIANO

Clean It the Way the Experts Do—A Very Simple Matter

The unsightly checking that mars so many pianos can be prevented from disgracing yours if you use Tobey Polish in time. Tobey Polish is a natural cleaner and beautifier made after the old secret Tobey shop formula. Simply put a little on your cheesecloth duster in the ordinary way and see the newness restored in the simple dusting operation. Preserves the fine finish. Adds to the value of your piano. Popular sizes, at dealers everywhere, 30c, 60c, \$1.00, \$1.75, \$3.00.

TOBEY Polish

# If Every Human Heart Could Tell Its Story!

WHEN little Bobbie Dean crept sobbing out into the dark of the city streets in search of the great theatre where played his mother who loved a violin better than she did her baby boy, he did not know that he was making history . . .

Nor did old Mrs. Matheson when from the front of her apartment house she tore down the sign which read "Positively No Children Allowed" and replaced it with another bearing the message "Children Welcome" . . .

When Margie wrote to Santa Claus imploring him to send her daddy back she did not realize that her pathetic little note was destined to bring tears to the eyes of a nation . . .

Yet, today—this very minute—hundreds of thousands of men and women are weeping, smiling, thrilling to the lure of these poignantly touching, true stories—such stories as they never read before they became acquainted with True Story Magazine—such stories as were never printed until the coming of True Story, the magazine that is written by its readers.

.....

INTO the life of every man and woman some day there comes a crisis.

Sooner or later Fate puts to the test every human soul.

And when that time comes there is lived a story more powerful than any fiction story ever written.

From the earliest dawn of history such stories have been lived. So long as the human race endures they will be lived.

Each is a chapter of the book of life. Together they constitute the history of mankind.

These are the stories that appear in True Story Magazine. Authors of fiction cannot write them. They can come only from the hearts and minds of the men and women of whose lives they are a part.

Just as they come to us, unchanged in thought or fact, they are published in True Story—so that each issue is a cross section of life as it is actually lived.

.....

THAT explains the unparalleled success of True Story Magazine which in six short years has captivated the hearts of the vast audience that each month goes to the newsstands and buys a greater number of copies of True Story than is sold of any other monthly magazine.

That is why you should become acquainted with True Story.

The October issue has just been placed on sale. You will find it at the nearest newsstand.

Washington, D. C., June 12, 1925  
Editor "True Story"  
New York City, N. Y.

Dear Sir:

Please accept my criticism of your magazine known as "True Story" which I have been reading for the past two or three years. I cannot find words to express its enjoyment, both to myself and family. I would heartily endorse this magazine, both for a Public Library and a Sunday School or a Church Library. In saying this I have in mind the morals which are incorporated in all stories which I have read in your magazine. Unlike most true stories, they are not only interesting, but very gripping. I can say this with all truth as I am far above the age when anything and everything would satisfy my desires in reading.

Yours respectfully, David E. Hardester

Deering, Kansas, January 29th, 1925  
Editor of "True Story" Magazine  
New York City, N. Y.

Dear Sir:

I have been a reader of "True Story" magazine for some time and I have been a judge in the lower courts of the above city and county for 18 years.

I have heard all kinds of cases that come in a justice court and I can truthfully say, that I wish that every person in this country, especially those under twenty-five years of age, would read at least one copy, for I believe it is of untold value to them.

If all would read, and take the warning and abide by it there would be far less cases in our courts.

Yours truly, G. B. Wanack

## AMUNDSEN GETS ITALIAN DIRIGIBLE FOR POLE FLIGHT

[Chicago Tribune Press Service.]  
ROME, Sept. 8.—Dirigible No. 1, the most modern Italian airship, will be used by Capt. Roald Amundsen in his dash for the north pole next March, according to an agreement signed here by the Norwegian explorer and Premier Mussolini a few days ago. It is learned tonight. The exact terms for the participation of Italy are not known, but it is understood that they are "very favorable to Italy." Italy furnishes the airship, equipment, and personnel, including the pilot.  
The dirigible to be used by Capt. Amundsen was built in March, 1924, holds 19,000 meters of gas, is 106 feet long and 26 feet high, and is equipped with three 250 horse power motors capable of propelling the machine 100 kilometers an hour with a load of eight tons.

## COREA TYPHOON KILLS TEN, LAYS COUNTRY WASTE

LONDON, Sept. 8.—[U. N.]—Ten bodies have been recovered and many persons are missing following a typhoon at Pusan, Korea, according to a Times dispatch from Tokyo. The typhoon destroyed 250 houses and badly damaged 2,000 others.  
Three trains were blown off railway tracks, killing three railroad men and injuring many persons. An accompanying tidal wave destroyed 40 houses, wrecked as many motor boats, and damaged crops to a great extent.  
Kyushu Island was also damaged considerably, forty refugee barracks were razed at Toyooka Island, which had been half rebuilt following the earthquake last May. Eight hundred houses have been destroyed at Toyama by fire.

## Watchman Held; Girl Says He Made an Attack on Her

Gottfried Driesen, 2146 North Halsted street, a watchman employed by the Citizens' Protective Association, was arrested last night by Lieut. William Blaul, charged with assaulting a woman who asked him Sunday night the way to 729 Dewey court, where she had obtained a job. Driesen was standing outside the Parkway theatre, 2736 North Clark street, when the girl who had just arrived from Minneapolis, approached him for aid.

## FLORIDA LAND ROW LEADS TO \$1,350,000 SUIT

Disagreement among promoters of a Florida land improvement scheme resulted yesterday in the filing of suits in the Superior court for damages totaling \$1,350,000.  
The first suit, for \$1,000,000, was brought by Alfred H. Smith, insurance broker at 175 West Jackson boulevard, and John U. Fish, broker, against the McCaskill Investment company, 7 South Dearborn street, of which Robert B. Lee McCaskill is president. Fish and Smith said they had agreed to float a \$1,000,000 bond issue to exploit a 10,000 acre tract in Florida which McCaskill owned. Then McCaskill refused to go through with the contract, they charged.  
McCaskill immediately replied with suits against the brokers for \$350,000, charging malicious conspiracy. The brokers had attempted to collect commissions on paper sales, he asserted.

# Where is Your Radio Market in Michigan?

The Free Press Station WCX was one of the first ten stations in America to secure a broadcasting license. The unrivalled excellence of its programs has brought forth comment from coast to coast. It has been a most important factor in creating and maintaining an interest in radio in Detroit and Michigan among the very people to whom the radio manufacturer must look today for business.

Get the facts about this big radio market. Write today for your copy of "The Radio Market in Michigan." It is the result of a survey just made by the Research Division of The Detroit Free Press, that covered all the radio dealers in the state. Address, The Promotion Department, The Detroit Free Press.

Merely to talk the language-of-the-listener-in or the lingo of the DX hound isn't enough to sell radio in Michigan. Even though your pictures and copy drip with a dial twisting appeal, if you permit your mediums to be picked by the swivel-chair route, watch out.

Selling will follow telling automatically if you'll talk consistently through Free Press columns. Endorsement proves it. 74 out of 100 of America's largest newspaper advertisers during 1924 making an appeal to the Michigan market used The Detroit Free Press. They can't all be wrong. A radio set is merchandise just the same as soap, soup or sole leather.

The Detroit Free Press not only builds respect and receptiveness for the radio manufacturer in the mind of the fellow who finally pays his price over the dealer's counter, but it keeps the dealer boosting heavily and heartily for your merchandise. How do we know? 90.3% of the radio dealers in Michigan are Free Press readers.

The Detroit Free Press gives you "front door" entrance and guaranteed reader-attention in 270,000 of the better type of homes of all classes. Its percentage of city circulation to total circulation is greater than that of any other metropolitan morning newspaper in America with one exception. Outside of Detroit The Free Press covers the market three to one over any other newspaper. In Flint, in Lansing, in Saginaw, in Jackson and a hundred other good Michigan radio markets, The Detroit Free Press is clearly the dominant newspaper, both in circulation and reader-responsiveness.

There you have it—the indorsement of the country's biggest advertisers, circulation, influence, coverage, responsiveness—those are the things you are looking for in any medium to sell radio—they are the things that flag attention and chalk up results.

Why not utilize this big business building power now? Why not use it to create your own radio market in Michigan? You can, for Free Press readers constitute the most satisfactory group of buyers in the State. Beyond that there is neither rhyme nor reason in going.

The new home of The Detroit Free Press, just completed, makes provision for the continued growth of one of America's great newspapers—one that has always been in step with the growth of Detroit. This new building, with its equipment, is one of the finest newspaper plants, and there is none more efficient in America.

## DRY CHIEF FIRES ENTIRE FORCE OF 65 IN PITTSBURGH

Pittsburgh, Pa., Sept. 8.—[Special.]—With one sweeping gesture, District Prohibition Administrator Frederick C. Baird, recommended for that position by E. H. Gary of the United States Steel corporation, today discharged Division Chief Gus J. Simons and the entire working force of 65 agents.

The reason assigned by Baird was that on Saturday he gave orders to Simons to assemble all his men on the job over Saturday, Sunday and Labor day to keep a careful lookout for expected beer shipments into the Pittsburgh district.

### Found Gang Getting Beer.

Saturday and Sunday, Baird trusted his men, but on Labor day he snatched into the Try street yards of the Pennsylvania railroad, where he found a gang of men unloading beer.

Only one of his agents was in the railroad yards and he had not interfered with the work of the beer runners. From this agent Baird learned that the other agents were scattered throughout railroad yards in other sections of the city, but Baird made a thorough search and none of his assistants could be reached.

Baird ordered the agent to take action in connection with the beer runners, but this morning Director Baird found no record of the Try street yards shipment. The director's action of discharging his entire staff followed.

Chief Simons is reported on his way to Washington, D. C., but Baird has named W. J. Martzoff of West View to succeed him, and Paul F. Koerner of Pittsburgh as Martzoff's first lieutenant. Martzoff was formerly divisional chief here and resigned.

### Will Name New Men.

Director Baird announced his intention to name seventy-five new men as prohibition agents within one week. Of these, he said that fifteen will be known to him alone. The fifteen "under cover" men will not be known to each other, will not report to the office, and the result of their work will be known only by Baird, the director stated.

A former traffic manager on the Pittsburgh and Lake Erie railroad, Baird was suggested for the position by E. H. Gary, who declared that the new director was the type of business man who could handle this district. Since Baird took office there has been a weekly decrease of 3,000 gallons in the moonshine supply here, it was said.

## RUMORED THEFTS OF BOOZE START FEDERAL INQUIRY

Chief Deputy United States Marshal John J. Doyle Jr. last night stated that reports of shortages at the government booze warehouses, Pershing road and Wood street, had been brought to the attention of his office. Rumors had it that something approaching the robbery of the warehouse last November had been perpetrated.

The rumors were said to be woven about the fact that P. A. Sommers, a watchman at the warehouse, had been transferred ten days ago by Marshal Anderson to a brewery. Sommers was on duty at the warehouse eight hours a day and his shift at the brewery was to have been twelve hours a day.

Sommers' transfer is said to have made him indignant. At any rate he resigned rather than go to the brewery. Later he was quoted as saying a quantity of whisky had been stolen from the warehouse.

An operative of the special intelligence unit inspected the warehouse two weeks ago. He searched several watchmen as they were leaving the warehouse, but found no grog, it is said.

### FALL FROM PORCH FATAL.

John Kowak, 36, 5424 South Winchester avenue, died at St. Bernard's hospital yesterday of injuries sustained when he fell off the rear porch of his home.

# PUT two pins in the map for Boston There are two markets to reach

YOUR map shows Boston—a city. But the experienced know that Boston is, for advertisers, two cities. For Boston is divided into two great groups of population—sharply separated by tradition, origin, sentiment, prejudice.

Each group represents, for the advertiser, a separate market—just as separate as though he were dealing with two different cities miles apart. They do not think alike, or feel alike, and they read different newspapers. No newspaper in Boston can successfully appeal to both groups. To attempt it would be to court failure. In this respect Boston is unique.

Of the major newspapers in Boston three appeal to the same group. The other, and for most products the more important group, is covered by The Herald-Traveler only.

## Try This Simple Little Test

Get copies of the four major Boston papers. Spread them on the desk before you. Observe the difference in the make-up, in editorial content, between The Herald-Traveler and the others. You'll see at once that it cannot appeal to the same readers as the others any more than they can appeal to Herald-Traveler readers.

There are two groups and each has its own newspapers. To reach a quarter million of Boston's most responsive families you MUST use The Herald-Traveler.

Let us tell you more about this unusual situation in Boston. Our booklet, "Business Boston," contains information about the TWO Boston markets which every advertiser should know. It will help you determine your potential sales in Boston. A request on your business stationery will bring it free—and promptly.

### "Just Hard Facts"

Total volume of National Advertising carried by Boston newspapers, from the report of the Boston Newspaper Statistical Bureau, September 1, 1925

# Here is the New and Determining Factor in the Sale of Groceries in

Influence of "The 49th State Food News" . . . new weekly feature of the Globe-Democrat—shown by rapid increase in volume of food advertising in St. Louis' Largest Daily

The 49th State

Point of Purchase Tie-up—  
that Really Means Something

The rapid growth in volume of food and grocery advertising in the Globe-Democrat during recent months is significant. It means that manufacturers, jobbers and retailers have found it increasingly profitable to sell their products through its pages.

To cover The 49th State adequately, merchants know it is necessary to use St. Louis' Largest Daily . . . in circulation figures the Globe-Democrat has led for years . . . but now there is a new factor in merchandising food and grocery items to this market. It is the development of a new weekly feature in the Globe-Democrat . . . known as "The 49th State Food News."

## Results You Can See

Although only ten months old, this feature is already recognized as a determining factor in grocery sales. Its influence on the purchasing power of this rich area . . . The 49th State . . . is comparable to that of the Cleveland Plain Dealer and the New Orleans Times-Picayune in their respective fields. Food merchandisers, who are buyers of newspaper space, know what this means.

The 49th State Food News appears regularly every Friday. Tempting recipes, suggestions for varying the menu, interesting items about food, are making this section as much an institution for 49th State housekeepers as the Sport and Financial pages are for the men.

Reader interest is evidently strong. . . Each day more letters come from women who wish to contribute prize recipes for publication. This reader interest means a receptive market, and is the strongest influence to

stimulate the sale of food products and grocery items. Response has been reflected in the articles now filling the market baskets of one of America's greatest markets . . . a market made up of more than a million families . . . requiring grocery orders sufficient to supply 13,828,134 meals per day.

## Why Your Advertising Pays

Consider the magnitude of this market . . . and that the Globe-Democrat is the only newspaper that adequately reaches the housekeepers of The 49th State . . . the value of advertising in its pages is self-evident.

Moreover, these pages carry your message into The 49th State homes at that time of day when women are making out their grocery orders. . . Immediate response!

The Globe-Democrat is received at the time when women have most leisure to read. It goes into the home and stays there. . . It reaches more housekeepers than does any other St. Louis daily because its daily circulation is greater. . . Facts proved by the St. Louis Newspaper Survey.

And among the trade its influence is felt each morning in the year by 2,971 grocery stores in metropolitan St. Louis . . . and 9,724 grocery stores in The 49th State outside of St. Louis.

The Globe-Democrat will gladly supply important and valuable information regarding the buying habits of The 49th State . . . the possible purchasing power of this rich territory . . . and why the Globe-Democrat is the most effective sales influence in this desirable market.

Here is an interesting plan which is getting window displays in St. Louis grocery stores for merchandise advertised in the Globe-Democrat—a new and important service, bridging the gap between the printed page and the place where the sale is made. The photograph below, showing one of the trimmed grocery windows, is an example of how effectively the buying-urge is stimulated for the benefit of advertisers whose message appears in St. Louis' Largest Daily.

Each month professional experts are engaged by

our Service and Promotion Department to install these displays. Representative stores in the best buying sections of the city are selected in turn.

The remarkable success of this plan proves the retailers' appreciation of the great influence exerted by the national advertiser's message in the Globe-Democrat.

The natural leadership of St. Louis' Largest Daily has again pioneered the way to helpful service that is really making advertising pay.

## WHAT'S WRONG IN EAST? NOTHING BAD IN BIG TEN

Graduate Manager Brands  
His Schools Scarlet.

### ARTICLES HARMFUL

LAFAYETTE, Ind., Sept. 8.—(Special.)—Dear Sir: In response to your request, I have read the "Graduate Manager" articles on college football finance. With considerable reluctance, I make a brief record of my opinion:

In my opinion, these articles are not worthy of the serious attention of those who have a sincere interest in the sound development of collegiate and intercollegiate athletics.

These articles are thoroughly unworthy of sponsorship. The "Graduate Manager" thinks quickly, with very thin evidence.

He harms where he should be helping. Respectfully yours,  
EDWARD C. ELLIOTT,  
President Purdue University.

BY WALTER ECKERSALL.

### ARTICLE I

Every year intercollegiate athletics, football especially, comes in for a deal of criticism from persons who are not acquainted with facts at the larger institutions. Conclusions are drawn from reports which deal with crooked happenings at some institutions which are considered among the nation's leaders, scholastically and athletically.

A series of articles written by an eastern university "graduate manager," which corresponds to athletic director in the Western conference, is now appearing in some newspapers throughout the country. In this series it is stated some graduate managers receive as high as \$18,000 a year, that athletes are hired to keep the teams, tutors engaged to keep the athletes above the required grade in their classroom work, and that in some cases the performers are on the pay roll of the various institutions.

### Western Conference Clean.

Illegitimate recruiting on the part of the coaching departments, students, alumni, and townspeople are also mentioned in the condemnation of college sports, football especially. While conditions of this kind exist at some universities and colleges in years gone by, and exist at a few at the present time, such a practice does not prevail in the Western conference, of which Maj. John L. Griffith is the athletic commissioner.

The Western conference, or Big Ten, is as pure an organization as there is in the country. Since its beginning efforts have been made to do away with every phase of professionalism, illegitimate recruiting, and the many other evils which were in existence prior to 1905, when the reform wave struck the college world and nearly wiped football off the athletic calendar.

In fact, the Western conference has enjoyed such a successful life that the Missouri Valley conference and Pacific Coast conference have been modeled after it. The many state and interstate conferences have practically the same rules as the Big Ten, which is having a tremendous influence on the intercollegiate world in general.

### Football Pays the Way.

Wild charges which cannot be substantiated by facts mean nothing. In the series of articles written by the "graduate manager" it is claimed a coach receives \$25,000, a team captain, \$10,000, and a single football player into a single college game. In the Western conference the amount expended on a single player is ridiculous, by low in comparison with the money to put a football eleven on the field, it should be remembered that the gridiron sport pays for all the minor pastimes, most of the intramural athletics, and in some of our institutions for all of the required work and physical education. Little money is foolishly spent, as a check is constantly kept on those who handle the funds.

Most of this "graduate manager's" articles deal with illicit recruiting. Two years ago the Western conference directors asked the rules of competition as they pertain to this matter of recruiting athletes. They agreed they would actively discourage illegitimate recruiting, which they defined as consisting of loaning money to athletes, giving money to athletes, giving athletic scholarships, or giving material aid that in any way would be considered in the light of hiring athletes.

### Alumni Keep Faith.

These directors not only agreed they would observe this rule, but they have told their alumni to keep faith with them and further that the violation of the rule on the part of alumni or persons connected with other institutions. Each year letters are sent to 10,000 high school principals advising them of the stand of the Western conference and requesting these principals to report any violations of this rule to the Big Ten commission.

While there is some cheating on the part of some persons each year, there is not as much as the public imagines. The commission is making an honest effort to enforce this agreement and it will maintain the knowledge of any violations which should be sent to Maj. Griffith.

At Michigan avenue, Chicago, Ill. There will always be some cheating in intercollegiate athletics, as in every other human activities, but on the whole the Western conference is the cleanest of the other activities.

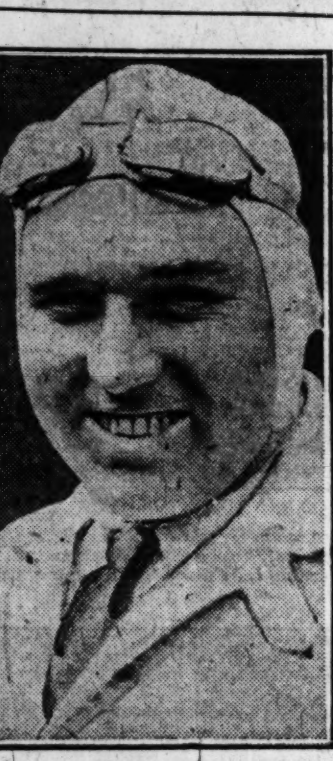

### Need Kneading.

Reference is made by the "graduate manager" to the competition between the east and west for athletes. It is true and the east has been successful in making the west has not, but it is time for the eastern institutions to clean up their act.

## MOON MULLINS—THE FOLLOW-UP

### INJURY IN URBANA AUTO RACE FATAL TO CHICAGO DRIVER

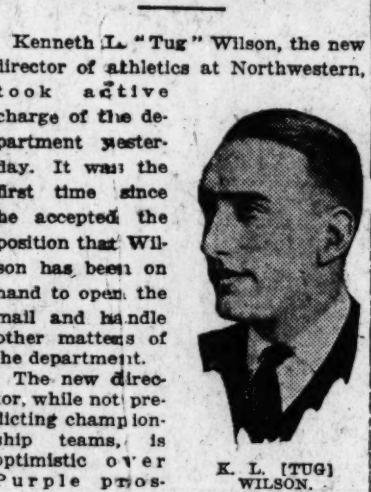

ESTHAN WENNESTON.

URBANA, Ill., Sept. 8.—(Special.)—Esthan Wenneston, 7417 Eberhart avenue, Chicago, a dirt track auto racer, who was injured in the Labor day races here, died in a local hospital this afternoon. His machine skidded and went through a fence and crashed into several cars.

Going into the west turn of the first lap of a 20 mile race at high speed Wenneston is said to have lost control of his car when something went wrong with the steering mechanism.

Wenneston has been in the dirt racing game for 10 years and is well known throughout the middle west.

### WILSON NOW BOSS OF PURPLE ATHLETICS

K. L. WILSON.

Kenneth L. "Tug" Wilson, the new director of athletics at Northwestern, took active charge of the department yesterday. It was the first time since he accepted the position that Wilson has been on hand to open the mail and handle other matters of the department.

The new director, while not predicting championship teams, is optimistic over Purple prospects, football especially.

It is Wilson's guess along with that of every other football fan that the Purple will be a contender for the western conference football championship, something which none dared to predict in recent years.

### Will Attend Rules Meet.

Wilson along with Glenn Thistlethwaite, head football coach, will attend the meeting of conference officials and coaches at the Auditorium hotel on Saturday morning at 10:30 o'clock when uniform understandings of the playing code will be reached.

This meeting will be presided over by Ralph W. Alger of Michigan, chairman of the committee which assigns officials to the various games. The other members of the committee are Prof. O. F. Long of Northwestern and Maj. John L. Griffith, the athletic commissioner of the Big Ten. It is expected the majority of conference coaches will be on hand and all officials have been notified to be present.

### Build Up Student Body.

"The policy of the department of physical education at Northwestern university will be to encourage the student body as a whole to take up, in one or another form, recreational athletics that will prove beneficial to the student's physical and mental development," Wilson said. "We hope to bring home to every student at Northwestern the belief that physical development and enjoyable recreation can be obtained at one and the same time and that who properly balances study and play will be the best student. A program of intramural and interschool sports that will reach every student is now being planned."

Director Wilson was asked if intramural activities would be permitted to react unfavorably upon intercollegiate games, and replied positively in the negative.

### YANKS, FRENCH IN WORKOUT FOR DAVIS CUP PLAY

Philadelphia, Pa., Sept. 8.—(AP.)—Tuning up for their battle for international tennis supremacy this week-end, all the members of the United States and French Davis cup teams practiced today at the Germantown Cricket club, where challenge round matches take place Thursday, Friday, and Saturday.

Fresh from their sensational triumph over the Australians in the interzone finals at Forest Hills, the French team, Jean Borotra and Rene La Coste, accompanied by Capt. Max Decugnot and Jacques Brugnon, substitute, arrived from New York late in the day to take the courts soon after the quarter of Americans—Tilden, Johnston, Richards, and Capt. Williams—had finished a brisk workout.

France's hopes have been lifted to a high peak by their advance to the challenge round for the first time since the winners of the tri-color entered the Davis cup competition in 1904. Capt. Decugnot, who is in charge of the French team, said that the French were confident of victory.

The French team is in the best of form and is expected to give the Americans a hard fight.

### Illini Football Tickets on Sale at the Hub

Football tickets for all University of Illinois games will be available for the general public, irrespective of university connection, beginning Sept. 11 at the Illinois branch ticket office at the Hub, State and Jackson. The sale meanwhile is limited to subscribers to the Illinois stadium, but the Illinois authorities that they will have 25,000 seats for the general public even for the Michigan game, the home-coming attraction.

### Opal A. A. Football Team to Start Practice Friday

The Opal A. A. football team will hold its initial practice Friday evening. The Opals are in the heavyweight division of the Midwest league and are dicker for a game for Sept. 20. All former players and those desiring a tryout are requested to report Friday at the clubhouse, 2628 W. 22d street.

### Bogoljubow Wins Chess Championship of Russia

MOSCOW, Sept. 8.—(AP.)—The Russian championship chess tournament ended yesterday with Bogoljubow the winner of the first prize and the title. M. Levenfisch was second and M. Rabinovich third.

### Woods and Waters BOB BECKER

BATS ARE STILL "HARVESTING" THE INSECTS.

STANDING under an electric street light a few nights ago we glimpsed for some time to watch three or four bats, dipping and twisting around as they pursued the insects that were attracted to the glowing bulb.

The warm days and nights that August has pushed into September are ideal for insects and the bats, due to leave for the south along with flocks of insectivorous birds, have postponed their departure. No need to leave until Jack Frost does his stuff and flushes the supply of insects.

A flying mammal that is highly specialized in many ways, the bat always has been a source of great interest to us. We marvel at his erratic, elusive flight, and strait is a mild term when it comes to describe his flying ability. On several occasions in the west and in Brazil we have tried shooting them with a shotgun. In a few evenings we were still shooting.

Moths, beetles, mosquitoes and other insects are attracted to the light of the bat. They're a distinct asset to a community because of the way they clean up mosquitoes. In Brazil we have thousands of these night flyers working over marshes where they clean up the large and bloodthirsty. Spending the day hidden in the roots of the palm thatch huts, the bats would only fly out at dusk to attack the skimmers and then you'd see thousands of the insect eaters over the marsh.

### MRS. F. W. KUSHEL MEDALIST IN OAK PARK GOLF MEET

Defending the club title at Oak Park, Mrs. F. W. Kushel yesterday led in the qualifying round of the annual tournament with a score of 90.

Prize winners during the day were Mrs. G. A. Stron, low net, and Miss M. Moore, in the ball sweepstakes.

The pairings for the first match round placed Mrs. Kushel against Mrs. W. H. Spear, Miss C. V. Williams, Miss Moore against Mrs. L. E. Phelps, while Miss Z. Pennington will meet the winner of the play-off between Mrs. W. W. Hodgson and Mrs. J. Meier.

An invitation junior tournament will be the chief attraction during the next two weeks at the Golfmoor club, 77th street and Cullen avenue. All junior golfers in the Chicago district are eligible to enter the competition.

The qualifying rounds will be played Saturday and Sunday, the semifinals Sept. 19, and the finals on Sunday, Sept. 20.

The Golfmoor club took the measure of the South Bend Gun and Country club Labor day at the Golfmoor club, 77th street and Cullen avenue. The South Benders, winners of four matches played in the second of their home and home series, Capt. George Reed was the only Bowler winner, and was forced to the nineteenth green to beat Jake Lannum of Golfmoor.

Oliver and J. J. Maloney disposed of H. B. Jackson, 2 and 1, while Bob Friend finished 1 up on Chuck Beck after a spectacular round. Best ball went to Cullen with a 77, two above par.

The G.W. O'Hara envelope company's annual golf tournament will be played next Tuesday at the Evanston Golf club. Col. D. G. Gaw, president; Thomas O'Hara, vice president; and Bob F. Moran, treasurer, have handicapped the players, who are to compete in seven divisions for cups and other trophies donated by the corporation.

### TILDEN MEETS FISHER IN TITLE TILT MONDAY

New York, Sept. 8.—(AP.)—William T. Tilden, II, Philadelphia, national tennis champion, will start the defense of his title next Monday in the national singles tennis championship at Forest Hills with Carl Fisher, Philadelphia, it was announced today.

Eight American players and six foreigners were seeded in the drawing, which was held at the Bankers' club.

Tilden was the first American seeded star. The others included William M. Johnston, San Francisco; Vincent Richards, Yonkers, N. Y.; Howard O. Kinsey, San Francisco; R. Norris Williams, II, Philadelphia; E. L. C. Norton, St. Louis; George King, New York; and Wallace F. Johnson, Philadelphia.

French Stars Seeded.

The foreigners seeded were topped by Jean Borotra of France. Others were ranked as follows: Rene La Coste, France; Manuel Alonso, Spain; James O. Anderson, Australia; T. Harada, Japan; and J. Brugnon, France.

William M. Johnston will face Horace D. Orser, New York, in his first round match. Vincent Richards drew H. Iwakaki, Japan.

One of the most important matches of the first round will bring together Rene La Coste, France, and Wallace W. Scott, Seattle, Wash.

Anderson to Meet James.

Another important first round battle will be between James O. Anderson, Australia, with Arnold W. Jones, Prov-

### AUSTRALIAN TENNIS STARS WON'T TRY FOR DAVIS CUP NEXT YEAR

New York, Sept. 8.—(AP.)—The appearance of the Australians in the Davis Cup matches today at Forest Hills was the last that American tennis followers will see of them in the international classic until 1927, and perhaps even later.

John B. Hawkes, manager of the team, stated today, following the defeat of Patterson and the elimination of the Aussies, that his country will not challenge next year.

Lack of funds is the reason for the decision of the Australians not to send a team here in 1928. Last year, according to Hawkes, they lost \$1,500 on their trip to America.

If the antipodeans stand by their decision not to challenge in 1928 it will be the first time that they will have failed to send a team here since 1921.

idence, R. L. captain of the Yale 1925 team.

R. Norris Williams drew a Philadelphia opponent for his first round match when he was paired with Neil Sullivan.

### MARQUETTE GRID PLAYERS PITCH TRAINING CAMP

Lake Beulah, Wis., Sept. 8.—(Special.)—Sixty Marquette university athletes pitched camp on the island here today and started preliminary training for the heaviest schedule ever drafted for the Golden Avalanche. Twenty more men are expected within two or three days.

Coach Frank J. Murray, and his assistants, Freeman Fitzgerald, Lloyd Scott, and Edgar Leavenworth, spent most of today in issuing equipment to their players.

### AXEL GRAVEM WINS SAGINAW NET TITLE

Saginaw, Mich., Sept. 8.—(Special.)—Axel Gravem, Chicago attorney, is the new champion tennis player of the Saginaw valley by virtue of his victory over Emmett Parr, a fellow townsman, in one of the most brilliant final matches ever played on the local Canoe club courts.

Gravem paired with Frank T. O'Brien of Chicago, to win the men's double championship held last season by two other Chicagoans, Jack Harris and George O'Connell, neither of whom competed this year.

Gravem and O'Brien took the due title to Chicago, when they took the measure of Paul Laidy, former University of Michigan tennis coach, and his teammate, Clare Schwegler of Midland in the final, 6-2, 6-1, 9-7.

The ladies' title went to Mrs. Emily J. Johnson of Detroit; when she defeated Mrs. Ruth Reiss of Saginaw, a former Michigan champion, in straight sets, 6-7, 6-4, 6-0. The valley ladies' doubles title went to Mrs. Johnston and Miss Florence Jensen, Bay City, Mich., when they triumphed over Miss Helen Pearson, Detroit, and Miss Margaret Bates of the Bronxville A. C., New York, 6-4, 6-0.

## THE BERGSTER HAT

### Decisive—

The Fall Bergster has a great asset in the speed with which most men decide that it looks well on them. One glance in the mirror is enough for this decision.

Here are three recommendations for the new Fall Bergster:

Its style is so correct that it gives an air of easy assurance—typical of a gentleman's hat.

The style lines which are built into the Bergster are held in by the Sta-Shape process of hatmaking.

Then, of course, there is that extraordinary knack of the Bergster to look well on almost any type of head.

See the Bergster in the smart new French pearls and biscuit tans. Try one on today. Most good haters have it. The price is \$7.00—other Bergs from \$5.00 up.

Good form—

In the case of Berg Hats "good form" has two meanings. The second one is the Sta-Shape feature which keeps the style lines in a Berg long after other hats have become shapeless.

# 6c FUEL OIL OR \$18 COAL?

There are just three oil burners a Chicago home owner would consider. All sell for about the same price. But of the three, only the Oil-O-Matic is listed as standard by the Underwriters' Laboratories to use fuel oil. So, with fuel oil at six cents a gallon, your course is clear!

**P**REPARE yourself for some remarkable facts on oil heat. Facts that leave no doubt in anyone's mind. And an offer only a coal baron might disregard.

If the heating conditions in your house are not extreme, it takes about 16 tons of hard coal to maintain even a semblance of comfort through the heating season.

At \$18 a ton, your fuel bill would be \$288. We'll forget about the cost of the man tending the furnace. Or the ash removal, boiler repairs, extra cleaning, etc. And the less said about your wife shoveling coal, the better.

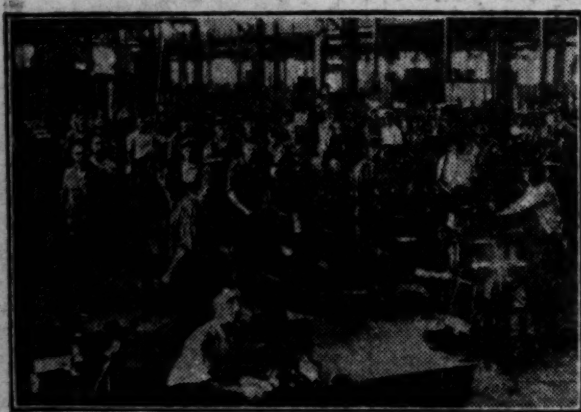

Some claim that 125 gallons of fuel oil equal a ton of good coal in heat efficiency. But let's be conservative. Say, 150 gallons.

With an oil burner you will have gratifying heat when you can't decide whether to build a coal fire or suffer in chilly rooms. In the early fall or late spring, for instance. So instead of 2400, about 3000 gallons of fuel oil are required.

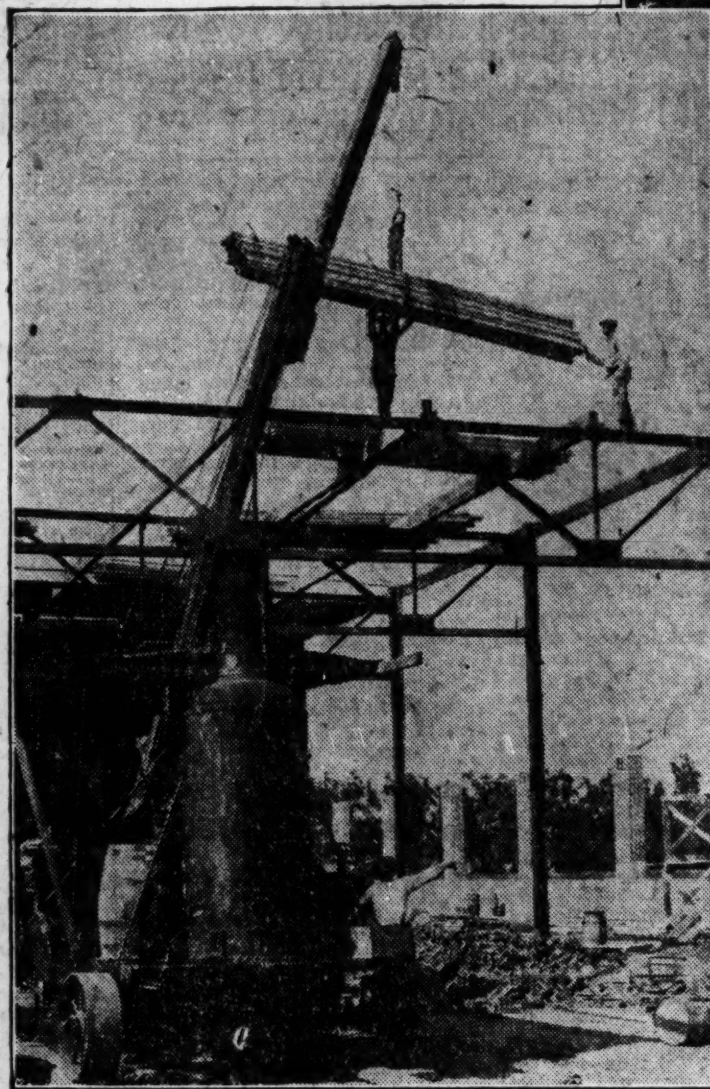

At 6 cents a gallon, fuel for your Oil-O-Matic would run you \$180. Add \$25 for electricity. That makes it \$205.

The difference between 6 cent fuel oil and 9 or 10 cent oil that most oil burners are restricted to, means \$90 to \$120 a year. Not to mention the cost of a continuous gas pilot and more electricity.

Needless to say, we do not infer that every house can be heated for \$205. Some will exceed that. Others will cost less. Not because Oil-O-Matic differs in various installations, but folks, houses and heating plants differ.

A GLIMPSE OF THE ASSEMBLING DEPT. where trained men check each part separately before building the unit. All the resources of the million dollar Oil-O-Matic Corporation are devoted exclusively to the production of Oil-O-Matics and nothing else. Huge production assures better value.

THE LAST LOAD of lumber being hoisted on the second unit of the \$600,000 Oil-O-Matic plant. This new unit, 40% larger than the first, will be in full operation within a few weeks. The correct method of heating with oil has proved to be such a tremendous improvement over coal, that home owners by the tens of thousands are turning to Oil-O-Matic.

THE FIRST LOAD of concrete being laid for the foundation of the third unit. The Austin Company, one of the largest construction firms in the country, is pledged to complete this plant in record-breaking time. Fourth unit starts at once.

Chicago that now have Oil-O-Matic heat. Some may have even more rooms to heat than you have. And none of these would ever go back to coal.

Your heating plant presents no problems that Oil-O-Matic isn't handling successfully in many of your neighbors' homes. For years they have been enjoying a degree of comfort unknown with coal.

So anyone who puts up with coal another season, is just postponing the benefits oil heat will bring.

A QUARTER OF A MILLION DOLLARS WORTH of Oil-O-Matics are shown here ready for crating and shipping. This particular lot has been sold but production has now reached 1000 a week, and is steadily being increased to take care of the overwhelming demand. Home owners have just begun to realize the benefits in breaking the coal habit. Oil-O-Matic offers you everything that science and the world's largest producer can build into an oil burner.

OIL-O-MATICS BEING TESTED in actual operation in standard furnaces. The Oil-O-Matic fuel is installed in your home is not an assembly of parts that SHOULD operate successfully together. Each burner is subjected to seven different tests and no Oil-O-Matic leaves the factory until it has passed all seven 100%.

There's no part inside the burner that burns out. No continuous pilot light to waste gas. No drip-back and off. Oil-O-Matic uses the fewest parts built to operate according to the four natural laws of oil combustion. Its principle has been proved for nearly seven years.

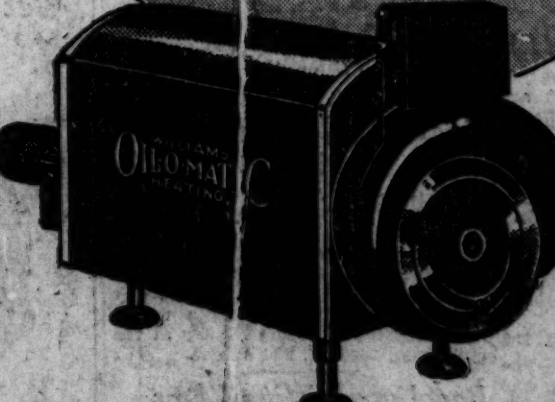

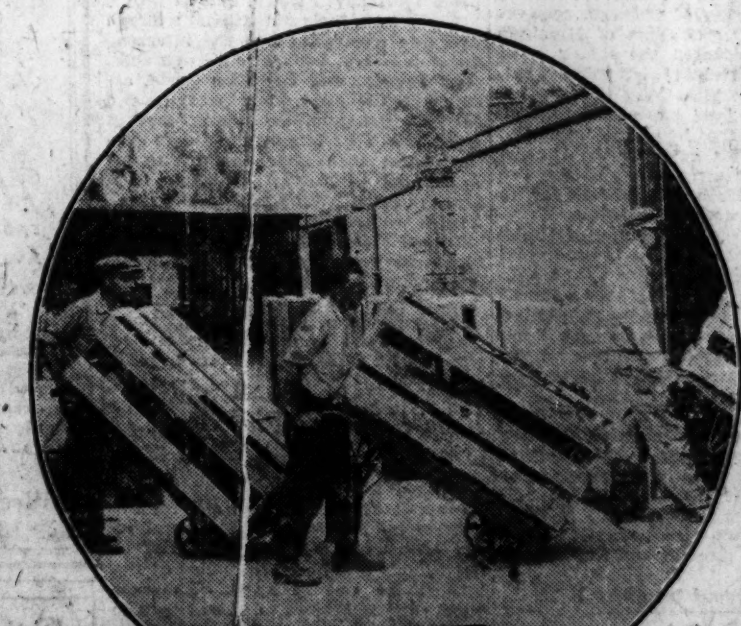

Why delay the day when your house is heated with no more attention than its lighting? You can make the change now, without any inconvenience. With every other modern convenience in your home why cling to the only antique left?

The offer explained at the right is without precedent. Whether or not you have fully made up your mind to have oil heat this year—register your name now. There is no obligation. Insure for yourself this remarkable price protection.

### 6c FUEL OIL GUARANTEED

The dealers listed below guarantee a flat price of 6 cents per gallon throughout the next heating season to all home owners who order their Oil-O-Matics before October 15. This offer is limited to home owners who register on the certificate below and mail it to the Chicago office. To protect yourself, register now. Then make your investigation. Compare Oil-O-Matic with any other method of home heating. Compare the fuel costs. As small a payment as \$50 puts Oil-O-Matic in your home. The balance may be extended over a year, beginning Nov. 1st if you prefer. Oil-O-Matic is guaranteed to heat your home within two degrees of the temperature set on the thermostat. The dealer who makes the installation agrees to take out your Oil-O-Matic, replace your grates without charge, and refund the amount paid on the burner, if for any reason Oil-O-Matic cannot consistently maintain this temperature.

Fill out and mail the certificate now. We will send you a library edition of our latest book on Oil Heated Homes with special plans suggesting pleasant and practical use of your basement space. At the same time, you are protected on the 6 cent price if you decide to order your Oil-O-Matic before October 15th.

OIL-O-MATICS BY THE CARLOAD are constantly being shipped for Chicago home owners. All who act now are assured of having their installation made in time. Get the Facts today!

### This Protects You on Fuel Price

#### THE OIL-O-MATIC CO.

185 North Michigan Avenue, Chicago

Please mail me a copy of your latest book and basement plans. I understand that signing this entitles me to a guaranteed price of 6 cents a gallon for the current season in the event I order before October 15th.

**Society Matrons  
Sponsor Training  
School for**  
**BY NANCY**

Have you a little home which needs just a little help to make her the perfect profession? The matrons are grateful to Mrs. Alice Granger, the convener of the Domestic Art School for the year, for announcing that the school will start next month, and that the course is now available to the home-makers.

Yours truly, Mrs. Grace Williams and Monroe, Mrs. John Granger, Mrs. J. Alexander Williams, Mrs. E. Evans, and other members of the matrons, are participating with you in the domestic science school by sponsoring and undertaking the course from various parts of the city, and where a housewife can learn those things which are so important in a well-run home.

Now a course has been started in which Mrs. Granger, a woman who may learn as much from a telephone as from a call, will be at a table, and will give the details in which the matrons must be trained in the art of the telephone.

The course is to consist of one hour each, the traditional "matrons' hour," and will be held at the Adams house at 250 Adams street, which the domestic science school will take over for the course. Whether the course will be held on the first or five, here's no doubt, and run by a group of experienced matrons, which may be of great help to a new, green matron.

We'll be happy to send your address to the reader who has a sweater for your sister.

## Society Matrons Sponsor Training School for Maids

BY NANCY R.

There is a little household in your mind that needs just a bit more to make the last word in domestic science.

If you have, you'll be interested in the training school for maids, which is being conducted by the Chicago Domestic Arts and Sciences Association.

The school, which is being conducted by the Chicago Domestic Arts and Sciences Association, is a place where a housewife can learn the art of housekeeping.

The school is a place where a housewife can learn the art of housekeeping. It is a place where a housewife can learn the art of housekeeping.

The school is a place where a housewife can learn the art of housekeeping. It is a place where a housewife can learn the art of housekeeping.

The school is a place where a housewife can learn the art of housekeeping. It is a place where a housewife can learn the art of housekeeping.

## SLOWNESS

There's but a single fault I know

That one young lady has—

she's SLOW!

She's slow to answer, slow

to dress,

And slow to go to bed,

O, yes!

She's slow to come and slow

to go.

She is a Goop, don't YOU

think so?

## WASHINGTON SOCIETY

Washington, D. C., Sept. 8.—[Special.]—With the return of President Coolidge to the White House on Thursday, and a meeting of the President's official family being called for next day, it is probable that the roster of cabinet officers in town will be complete by Friday—excepting only the Secretary of War Weeks, for whose return no date has been set.

Mr. Kellogg, secretary of state, will return tomorrow morning from Hot Springs. Secretary Mellon, of the treasury, is also expected tomorrow, coming from his summer home at Southampton, L. I., and Postmaster General and Mrs. McMillan are expected to return from their vacation at Cape Cod tomorrow.

Mr. and Mrs. William A. Magie, former Chicagoans, have been making a tour of the White House grounds.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Auntie Sue, The Tribune, Chicago.

Armin Jr. had been taken on a tour of a museum with his father and mother.

When he returned, rather tired from the trip, he said: "Well, Junior, what did you see today?"

He replied in a weary voice: "O, some stuffed animals and lots and lots of stairs."

Nancy is acquainted in the money world only with nickels. On a special occasion her father handed her a quarter. Nancy objected at once. At last father told her to go down to the corner store and see what she could buy with the quarter.

A few minutes later Nancy rushed in, excited.

"O, daddy, I bought five nickels," she exclaimed. O. C. P.

and cook over a minimum fire, stirring occasionally, so they will brown on all sides. If they should seem rather dry when tender, turn off fire, leave on cover, and let them steam five minutes. These can be cooked to be as palatable as French fried potatoes. They will keep hot an exceptionally long time.

This method is a slight variation from the oven fried potatoes popular as an alternate to French fried potatoes, which they never in any way equal; yet potatoes, cut in the same way we cut those for the French fry, may be baked in the oven if they are heated frequently enough with fat.

Pan browned potatoes, prepared as follows, may be delicious: Choose small potatoes and wash, peel, and dry them with a cloth. Have a tablespoon of fat in a frying pan with a cover or in the kettle called a Dutch oven—the fat from salt pork is good. Only a bit of fat is needed; otherwise the potatoes, when done, might be coated with fat. Have the pan hot and the fat hot; when the potatoes are put into it, sprinkle them lightly with salt, cover,

blue background and white striping, or with white background and blue striping. The blue striped shirt would look extremely well with any blue or gray suit.

Here are some color schemes that may successfully be applied to your own case, using a blue and white striped shirt as the shirt part of the ensemble.

Taking first a navy blue suit, with the blue and white shirt, this outfit could be completed with a striped tie of orange and dark blue, or the old standard guards tie of inch red and dark blue stripes. A pearl gray felt hat with navy blue band would go well with this.

Wearing the shirt with a gray suit of medium shade, the tie might be a black and white effect, in a check, stripe, foulard, or Spitalfields silk. Or the tie might well be a gray and blue combination, or a gray and dark red, in stripe, figure, or mottled pattern.

BY A. T. GALLICO.

## Wales Wears 'Em.

NEW YORK, Sept. 8.—[Special Correspondence.]—Just because the prince of Wales didn't make a visit to these shores this summer don't think that his influence on the sartorial world may be counted as nil. There is being featured in one of the big avenue smart shops a shirt sponsored by his royal highness, which will doubtless meet with approval here with the well dressed men, for it is a smart shirt and a neat one.

The feature of the shirt is the self collar, with two buttons on the neckband and a small tape under the tie. The buttons button so that the points of the collar are held together. This gives the neat effect at the neck without a collar pin.

The shirt is being offered in a plain blue, a pencil stripe of madras with

## PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

Georgette or crepe would make up attractively in this slip-on dress with circular insets at the sides. There is a deep square neck and a collar draped across the back ends in jabot effect.

The pattern, 2514, comes in sizes 36, 38, 40, 42, and 44 inches bust measure. Size 36 requires 3 1/2 yards of 40 inch material with 3/4 yard of 38 inch contrasting.

Order Blank for Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of such patterns as you want. Inclose 10 cents in stamps or coin [coin preferred, wrap it carefully] for each number, and address your order to Clotilde, Chicago Daily Tribune.

Note—Clotilde patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Auntie Sue, The Tribune, Chicago.

Armin Jr. had been taken on a tour of a museum with his father and mother.

When he returned, rather tired from the trip, he said: "Well, Junior, what did you see today?"

He replied in a weary voice: "O, some stuffed animals and lots and lots of stairs."

Nancy is acquainted in the money world only with nickels. On a special occasion her father handed her a quarter. Nancy objected at once. At last father told her to go down to the corner store and see what she could buy with the quarter.

A few minutes later Nancy rushed in, excited.

"O, daddy, I bought five nickels," she exclaimed. O. C. P.

and cook over a minimum fire, stirring occasionally, so they will brown on all sides. If they should seem rather dry when tender, turn off fire, leave on cover, and let them steam five minutes. These can be cooked to be as palatable as French fried potatoes. They will keep hot an exceptionally long time.

This method is a slight variation from the oven fried potatoes popular as an alternate to French fried potatoes, which they never in any way equal; yet potatoes, cut in the same way we cut those for the French fry, may

An advance on Monday holiday.

A fallow of shipping orders accumulated since last week-end released nearly 30 per cent of yesterday's

fresh arrivals of hogs, resulting in a strong to 10c higher market on better grades of light and light lighter carcasses. Demand was steady. Medium and weighty stock, left to low consumption, showed little price improvement and closed weak, with packing grades in spots a little lower. The day's top and average prices remained unchanged at \$13.25 and \$11.50, respectively, although average carcass weight was 150 lbs. and was considered as much as 15c out of line at the low time Saturday. Only 4,000 open holders and inferior packers were present. The market was quiet on Tuesday holdover in several months.

Weakness prevailed in all but better grades of heavy corn fed steers yesterday, despite only moderate demand. The market was quiet on Tuesday, with the exception of the top, which moved up to \$16.15, within 10c of the highest level since 1920 and 5c above the previous high. The market for steers to an eastern house reached the top, with 1,340 lb. averages at \$15.50, the next highest. Few sales were above \$14.75, which was paid for a few choice, well finished, bulk beef steers. Cattle bringing \$.0800/13.5. Butcher stock held steady, 672 lb. heifers, \$11.50. Calves and bulls were steady; stockmen and feeders strong to higher.

### Sheep Receipts Small.

Sheep receipts were about 25,000, a surprise, as the holiday run for this Monday holiday. Turnups of mottled and spotted fleeces were few. The lambs sold to \$15.85, the highest lambs since July 30. Best natives reached \$15.50 and feeders \$15.45. Aged and yearling stock continued at little less than \$12.00/10.35. Yearling breeders were worth \$12.00/10.35.

Receipts at Chicago for today are estimated at 13,000 cattle, 18,000 hogs and 20,000 sheep. The market for 650 hogs and 19,000 sheep the corresponding Wednesday a year ago.

### OUTSIDE LIVE STOCK MARKETS.

Increases of values at leading outside markets ranged from 40c lower to 25c higher.

Sealed bids for  
the purchase of  
HOG ISLAND  
will be opened at  
noon, October 1st.  
*Immediate application for book-  
let and form of bid is advised*

**H**OG ISLAND, with its 946 acres and millions of dollars' worth of permanent improvements, awaits the successful bid of some group or industry whose management recognizes Hog Island as the world's greatest terminal and industrial site.

Hog Island is not a development "planned" or "projected." Its piers, warehouses, cranes, buildings and tracks are already there. Its utilities have served a population of thirty thousand.

Situated directly on the world's ocean routes, connected with trunk line railroads, and within easy hauling distance of Pennsylvania's coal fields and steel mills, Hog Island has all the advantages, natural and man-made, that fit it for America's great industries.

For booklet, "What will be the Future Industry of Hog Island," and information to bidders, address Sidney Henry, Vice-President, United States Shipping Board Emergency Fleet Corporation, Agent, Washington, D. C.

## Where the Profits Are

THIS is a year of big profits—big profits even than 1924.

But the distribution is far from even. Some industries that were highly prosperous now are barely more than breaking even. Others have emerged from depression and are making amazing gains.

And in many cases the true facts have escaped general notice.

The Standard Quarterly Index of Business has just been published for the first time.

It enables the executive to compare the profits of his company with those of others in the same line.

It helps the investor decide whether the profits are already discounted in the price that makes prices.

You can secure this information through your banker or broker or by sending us 50 cents in stamps.

## RECEIVINGS OF FREIGHT SHOW BUSINESS TREND

BY O. A. MATHER.

With Labor day traditionally marking the beginning of the autumn business period, signs of expanding trade multiplied yesterday. The principal indication of increasing activity again lay in the volume of commodities being moved by the railroad.

More cars were loaded with revenue freight during the week ended Aug. 29 than ever before for any week on record. The total was 1,124,436 cars, an increase of 12,091 over the previous high mark set in the week ended Oct. 24 last.

It marked the third time that loadings have exceeded 1,100,000 cars in any one week, the other times occurring in October last year. The current total marked an increase of 44,239 over the preceding week, of 103,627 over the same week last year, and of 22,886 over the corresponding week in 1923. The increase applies to all commodities, particularly miscellaneous freight and coal.

Steel Operations Increase.

The steel industry is continuing to increase its output as a result of improvement in the demand for steel products. Last week was the best in the history of the district in some time, with the heaviest orders since early in April and the large volume of steel products.

The United States Steel corporation is credited with operating at about 77 per cent of capacity, compared with the low level of 61 per cent in midsummer, while the Illinois Steel corporation is operating at about 80 per cent.

A steady increase in operations is expected to prevail from now until the winter months, while buying of steel products is expected to continue to improve over the remainder of the year, especially in view of the fact that the railroads have already started to come into the market for new equipment, and before long larger orders for steel rails are expected to develop.

Gain in Postal Receipts.

Another sign of better trade came in a report by the postoffice department that receipts at 50 selected industrial city postoffices during August totaled \$2,783,672, a gain of 8.92 per cent over August last year. At the same time three large chain store groups reported their August sales figures, which showed increases ranging from 9 to 20 per cent over a year ago, while sales for the year to date were 10 to 14 per cent higher than for the first eight months of 1924.

As a result of the better outlook for the fall and winter in the textile industry, operations were resumed by several New England mills yesterday. The mills of the American Woolen company and other concerns in Lawrence, Mass., were reopened after a shutdown over 2 times during the summer. The Pacific Mills opened the cotton and worsted departments after a ten days' vacation period.

Peaceful Penetration Pays.

The big American industries are finding that peaceful penetration through alliance with foreign concerns is more advantageous than the old-fashioned method of outright rivalry. Whatever prejudice against American goods and favor for home products that may exist is largely removed. The General Motors corporation, for example, has secured the American automotive industry, has adopted this plan.

The new consolidation which we have made in England with the Austin Motor company should be very beneficial. Vice President John J. Raskob said yesterday on returning from Europe. "We have secured a shutdown over 2 times during the summer. The Pacific Mills opened the cotton and worsted departments after a ten days' vacation period."

pound, were 91c; 6x-5, 4.55 yards to the

## HEAVY RECEIPTS FAIL TO DEPRESS PRICE OF WHEAT

BY CHARLES MICHAELS.

Immense receipts of spring wheat in the American and Canadian northwestern markets with more than 6,000 cars at the three markets failed to have the depressing effect expected, and with Liverpool 14 1/2 higher Saturday and free buying by shorts and investors prices moved up to 1 1/2 and closed about the top with net gains of 1/4 to 3/4 c. Corn was 1/4 to 1/2 lower despite claims of heavy damage due to heat and drought. Oats were unchanged to 1/4 c higher, and rye 1/4 to 1/2 c higher.

An overall condition was disclosed in the wheat market at the start, but on all rallies there was grain for sale and prices held within a range of 2 1/2 c, the closing return being due to free buying by a local trader, who was credited with selling corn. Dry weather reports came from parts of Australia, and with the lack of exports of Manitoba, and a decrease of 3,024,000 bu in supplies on ocean passage had considerable influence on Liverpool. On passage wheat now averages \$74,000 bu, against \$73,250 bu last year.

### Visible Supply Increases.

An increase of 2,452,000 bu in the domestic visible supply was less than the trade anticipated, with the total 35,013,000 bu, against 32,785,000 bu last year. Minneapolis had 1,705 cars, Duluth 1,911 cars, and Winnipeg 2,400 cars for three days, but the demand for the cash grain was active, although at Winnipeg the basis declined 1/2 c as compared with October, with No. 1 northern selling at 13c over the future, readjustment being under way to a new crop basis. Minneapolis mills sold more than 800,000 bu, and December as a hedge against cash. Buying of December there around \$1.50 was strongly in evidence, while at Winnipeg there was buying that looked as if for foreign account. Duluth reports farmers buying futures and predicted a lull in the big movement in about 10 days.

Foreign demand for cash wheat was confined largely to Manitoba, with sales of 600,000 to 700,000 bu in all positions at the seaboard. The bulk of the wheat received at Winnipeg is said to be going to the Canadian pool and it does not appear on the open market.

### Corn Closes at Bottom.

Corn showed considerable strength early, due to the damage reports, but later there was selling on the better weather conditions in parts of the northwest and Iowa, and with pressure credited to a leading local operator the close was at the bottom. Rains would not benefit the crop in some sections of the belt, as the grain has ripened prematurely. Sales of 200,000 bu were made to go to stock, but the movement of old corn is small in all sections, arrivals here being only 231 cars, with the basis unchanged. Oats were influenced largely by the action of corn. An increase of 7,454,000 bu in the visible supply had little effect, although the total is \$8,140,000 bu, against 18,927,000 bu last year.

Rye averaged higher in sympathy with wheat. Export demand at the seaboard was slow. Crop in countries exclusive of Russia, that ordinarily raise about 78 per cent of the world's crop this season is 774,000,000 bu, against 589,000,000 bu last year.

### Provisions in Decline.

A leading packer was credited with selling a line of October lard and found support lacking, and the finish was about the bottom, with net losses 15¢ to 25¢. Hides were unchanged and bellows 7¢ lower. General foreign demand for lard is slow. Prices follow:

## CASH GRAIN NEWS

Report sales of wheat at the seaboard were heavily estimated at 600,000 to 700,000 bu, largely Manitoba, with a more general decrease in receipts. Oats were 150,000 to 200,000 bu, and 100,000 to 150,000 bu, with the domestic trade, with 200,000 bu to go to stock. Chas. W. Wainwright, 230,000 bu to oats to Georgian bay. Deliveries on September 8th, the best premium on the crop, while No. 2 had was 46¢ over the future. Basis at Kansas City was firm on hard winters and somewhat higher on red, with prices up changed to 10¢ higher. St. Louis and Omaha advanced 1¢.

Milling demand for cash wheat at Minneapolis was fairly active, but the latter offering finally had an effect, and later trades showed as much as 1/2 c decline in the basis. No. 1 northern was 14¢ over September. Offerings of cash corn were not large and the basis was steady. With No. 2 mixed 16 1/2 c over, yellow 14 1/2 c and white 14 1/2 c. Oats were 15¢ over, and 14 1/2 c. Rye was unchanged to 1/4 c higher, and rye 1 1/4 to 1 1/2 c higher.

# Army Paves the Way for Inquiry Into Mitchell Charges—Spanish Troops Land Near Riff Leader's Stronghold

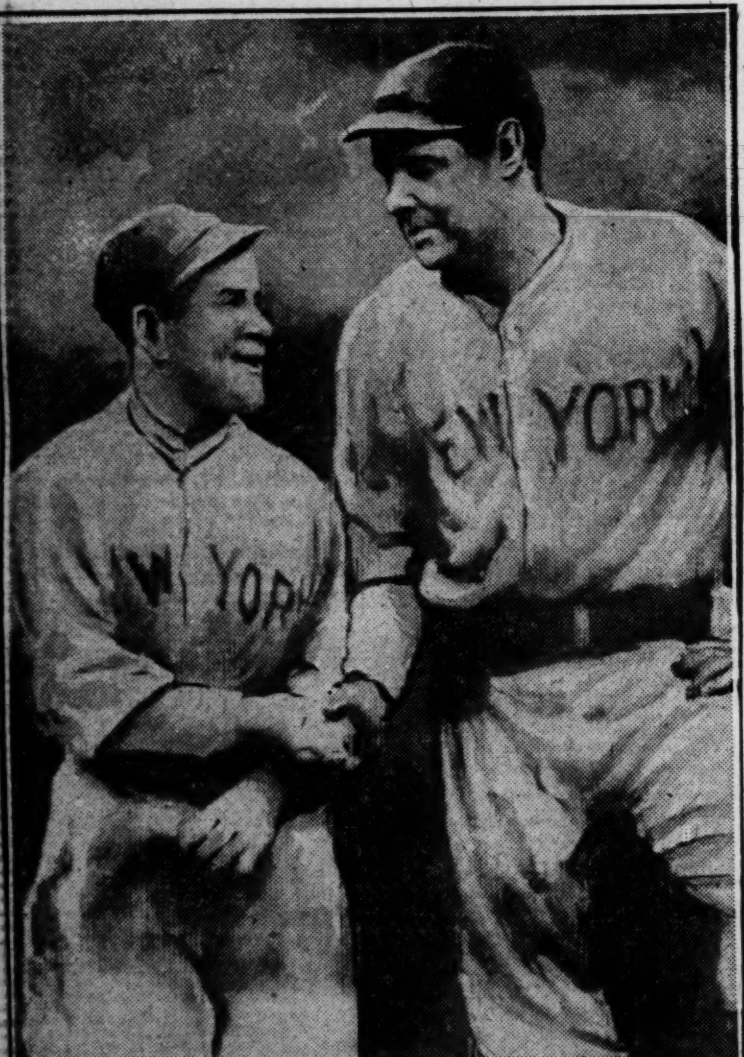

**STATE TO PUSH CASE AGAINST NOEL AS SANE.** Left to right: Recorder R. W. Evans, Chief of Police William Bogan, and Harrison Noel being arraigned for murder at Cedar Grove, N. J. (Story on page 1.)

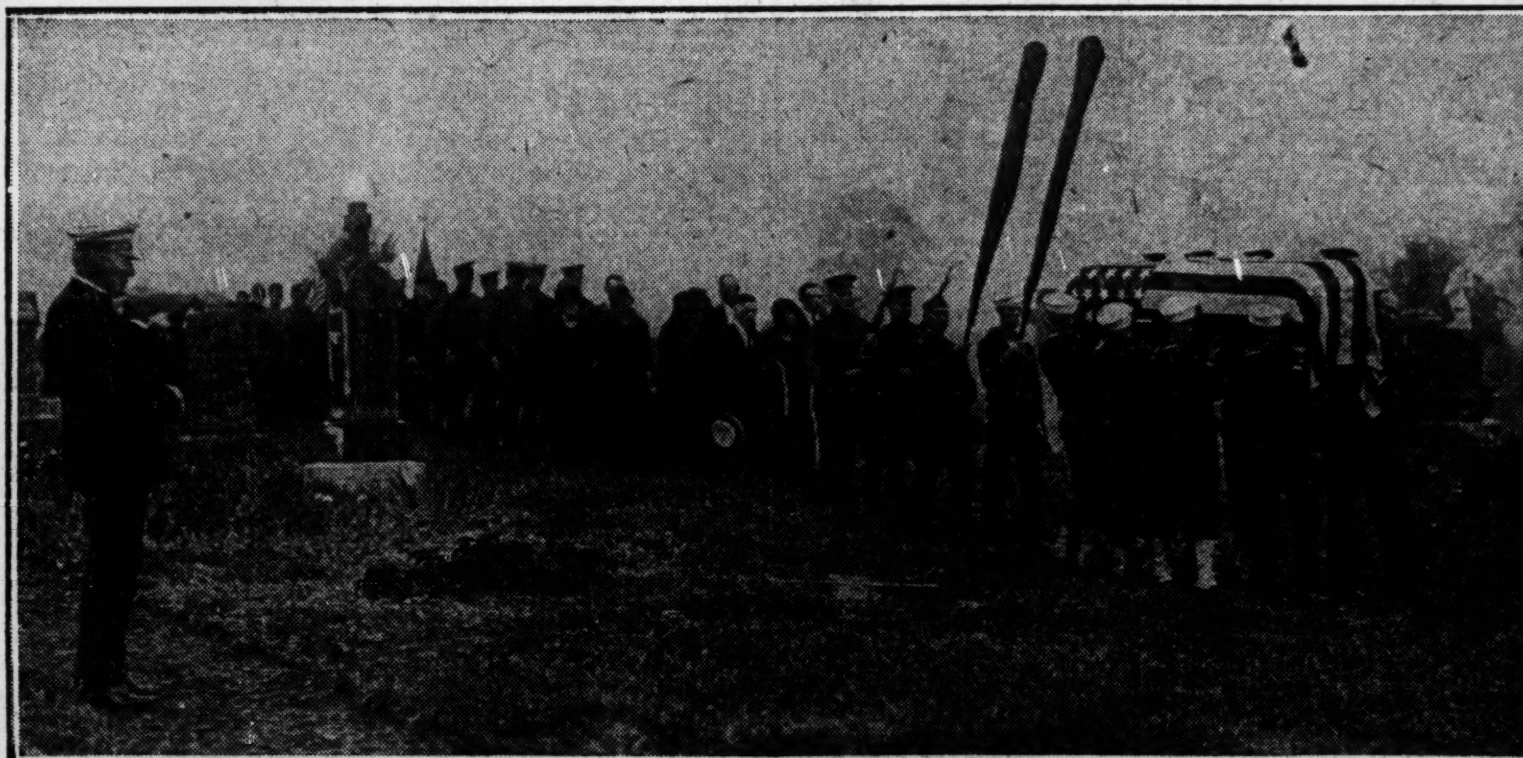

**ARMY CHIEF OF STAFF TAKES INITIAL STEPS TO PUNISH MITCHELL.** Maj. Gen. John L. Hines, chief of staff (left), who has ordered authenticity of Mitchell statements established, and Col. William Mitchell, who now faces court martial. (Copyright: Henry Miller Newspaper Service, Inc.) (Story on page 1.)

**RIFF STRONGHOLD IMPERILED BY LANDING OF SPANISH TROOPS.** Pedro del Alhucemas, called the little Gibraltar of Abd-el Krim. It is one of the defenses of Alhucemas bay where the Spaniards have established themselves. (Story on page 1.)

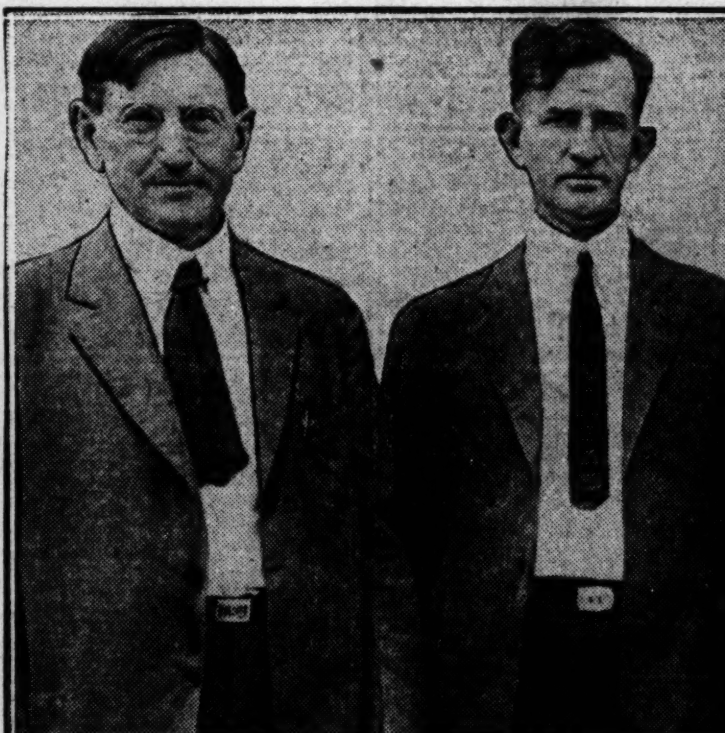

**BABE RUTH, FORGIVEN, BACK WITH YANKEES.** Miller Huggins, manager of New York American league team (left), and Babe shaking hands at Fenway park, Boston. (Telephoto Photo: Copyright by P. & A.) (Story on page 25.)

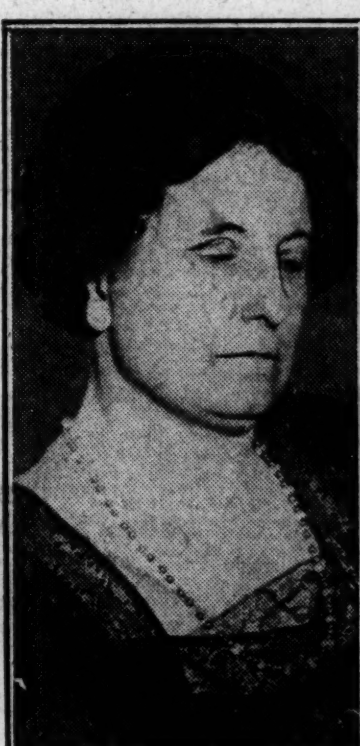

**HOLD FUNERAL SERVICES FOR VICTIMS OF DISASTER TO SHENANDOAH.** The picture shows the procession that followed the body of James A. Moore, aviation machinist's mate, to Holy Cross cemetery, Arlington, N. J. Four other victims, including Lieutenant Commander Lansdowne, were buried yesterday in Arlington National cemetery. (Story on page 5.)

**SHOT BY GANG.** Miss Mary Fago, 15 West 128th street, wounded by stray bullet. (Story on page 15.)

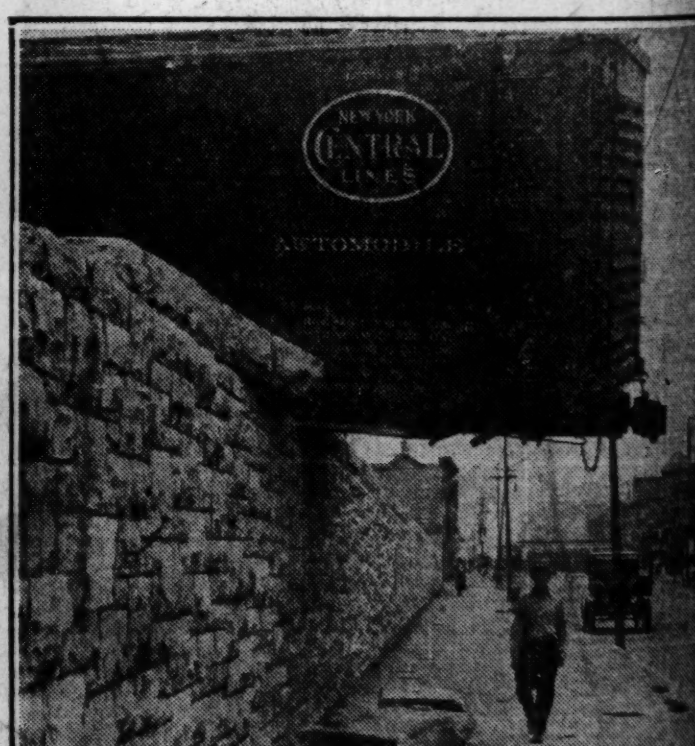

**RAILROAD RATE HEARINGS OPEN IN CHICAGO.** Clyde B. Aitchison, chairman interstate commerce commission (left), and Frank Mulholland, president board of railroad commissioners. (TRIBUNE Photo.) (Story on page 3.)

**FIGHTS RUM.** Miss Mary Bailey, assistant U. S. district attorney, in charge of liquor cases. (TRIBUNE Photo.)

**COLORER RABBIS WIN CASE IN CITY COM.** Rabbi Caino Stifson (left) and Rabbi David Lazarus successfully defend girl who collected for colored synagogue. (TRIBUNE Photo.) (Story on page 16.)

**FREIGHT CAR HANGS IN AIR OVER SIDEWALK.** Result of accident in railroad yards at Root street between Wentworth avenue and La Salle street. (TRIBUNE Photo.)

**SPURNS CONTEST.** Ruth Malcomson, 1924 beauty prize winner, refuses to compete.

**LABOR DAY BRINGS TRIBUTE TO SAMUEL GOMPERS.** Left to right: Capt. R. P. Grandall, William Green, Gompers' successor, and Hugh Frayne placing wreath on grave at Taggartown, N. Y. (Pacific and Atlantic Photo.)

**TOURISTS WHO SURVIVED EASTON, PA., RAILROAD WRECK ON THEIR WAY BACK TO CHICAGO.** Members of the party that left Chicago for Germany last spring, but lost many of their number in railroad wreck, reach New York on S. S. Republic. Leopold Neumann of Chicago, director of tour, is in the center, wearing a beard. (Pacific and Atlantic Photo.)

**HEADS LAWYERS.** Chester I. Long, Wichita, elected American Bar association chief. (Pacific and Atlantic Photo.)
